NARRATIVE OF FACTS.  
1911.

“FOR the Lord thy God hath blessed thee in all the works of thy hand; . . . these forty years the Lord thy God hath been with thee, thou hast lacked nothing.” In sending forth the Narrative for this the fortieth year of the Orphan Homes, we feel that these words of Moses sum up the experience of all the years, and with hearts full of gratitude, and with a deep sense of our own unworthiness, we ask our friends everywhere to join us in thanksgiving to God for His abounding goodness and His unfailing provision. The year that has just closed has been an arduous one in many ways, but there has been no financial burden to weigh us down or cause anxiety; and in these disquieting days, when unrest seems to be pervading all classes and all nations, it means much to remember that the living God is still the same, and there is no want to them that fear Him. We began the year knowing that £40,000 would be required for daily maintenance and other necessary expenses, and without personal solicitation or appeal, in answer to the prayers of God's people the £40,000 has all been sent in by friends known and unknown. The exact figures for the year are:—

I. For the Orphan Homes, .. .. .	£30,860	15	9
II. For the Consumption Sanatoria, ..	5,501	14	8
III. For the Colony of Mercy for Epileptics,	2,084	9	4½
IV. For Home and Foreign Missions Fund,	1,568	15	10

£40,015 15 7½

Throughout the year we have had on an average 1,750 children, patients, colonists, and helpers depending on the daily supplies, and “we have lacked nothing.” The additions to our number during the twelve months have been 361 children, 340 patients, and 23 colonists. In the various branches the work has been carried on with a measure of success, and we have reason to praise God not only for temporal prosperity, but also for the evidences of spiritual growth in the hearts of many who have been or are now under our care. We desire never to lose sight of the main purpose of the Homes, the salvation of all entrusted to us; and while we have often to sow in tears, we believe the reaping time will come, and we thank God for what we have already seen of the harvest.

In the matter of buildings the year has been a busy one. Barnhill Home, and the superintendent's and workers' houses have been completed, and are now occupied. The “Elise” Hospital is roofed in, and

the new "Murray Brown" Home, for which money was given to us this year, is also in course of erection. There has been a large outlay on sanitary alterations, and the dry summer has shown us the necessity for increased water storage, which we are at present arranging for. This will mean feuing land for a large reservoir above our present supply, and the expense, including additional sewage filters, it is expected will amount to £4,000. This is a pressing need, and we feel sure will be supplied.

The new Home in the Colony of Mercy for Epileptics is ready, and there are now vacancies for children as well as for men and women. Unlike the Orphan Homes, a charge is made for maintenance in the Colony, and particulars will be supplied on application.

For all the gifts of money and clothing and provisions, as well as for the loving, prayerful sympathy and practical ministry of our fellow-helpers near and far, we are deeply grateful, and feel sure they will rejoice with us in the record of what has been accomplished in the past year.

THE FAMILY IN THE "MARSHALL" HOME.

For the sake of friends who have not seen previous reports of the Orphan Homes the following states the basis upon which the work is carried on:—

In the year 1864, Mr. Quarrier began his public work among the street boys of Glasgow by the organisation of shoeblack and newsboys' brigades. Out of these developed the Orphan Homes, which to-day provide a Home and Christian training for 1,400 fatherless and orphan boys and girls of all ages. In the years between 1871, when the first Home was opened, and now, over 14,500 children have passed through the Homes, 5,789 of whom have been sent to Canada. Something like £879,000 has been received in voluntary gifts, of which £290,000 has been expended on buildings, land, etc., and £589,000 on the maintenance of the Homes and Sanatoria and Colony, and Home and Foreign

Missions. The work is carried on in dependence upon God for daily supplies. No one is called on personally, nor do we send out collectors. The needs are committed to God in prayer, and we look to Him to move the hearts of His people to send all that is required. The aim of the Homes is to witness to God's faithfulness, and to provide for the fatherless children of Scotland. No payment is necessary to secure their admission. Any child in any part of Scotland, if fatherless and destitute, is eligible, and friends knowing of such should apply to us at once, and thus help to save the little ones from want and misery.

Despite the prevalent desire of the day for new methods, we still adhere to the old plan for this Fortieth Annual Narrative, and desire once more to set forth the Lord's daily benefits and events of special interest to the inhabitants of the children's city, in the form of a diary, hoping and praying that all who read may be encouraged by the story of the *changeless providence* of a loving Heavenly Father for His little ones entrusted to our care.

We have a very wide circle of true friends whom we have never seen face to face, but must consider quite familiar, so frequently and regularly do they minister to our necessities both with their gifts and with the words of cheer that accompany them.

It is of the nature of our work to experience disappointments, but very often when on the point of despairing of one and another, God has sent us an uplift in a letter or a gift from some of those whom we have sent forth, and so we pass on such inspiration to "faint not" as has sent us "on our way rejoicing."

NOVEMBER, 1910.—Our first word in this new financial year must be one of praise to God for all His great goodness in the year just closed, as well as for the large balance given us as an earnest for the days and months to come.

O Father, who hast by me stood,  
I thank Thee for my memory;  
Hope bids me fear no change or ill,  
Thy goodness great will bless me still.

We look back at His faithfulness but forward to the inexhaustible balance standing to the credit of all who put their trust in Him. May the lesson of another year's needs so bountifully met, deepen our faith; and when like Jacob of old we are unable to wrestle, may we have grace given to cling.

Among the gifts reaching us on the first day of the new year are 5s. from a children's service in Edinburgh; £5 per a branch of the Commercial Bank; and a cheque for £25 from the Scottish Co-operative Wholesale Society. Of the smaller donations, two shillings' worth of postage stamps is from an old lady, and half-a-crown comes as the contribution of another, who writes saying she is in her eighty-third year. A "tenth" from Mull amounts to 1s. 9d., and someone in a neighbouring town writes, "A customer of mine in Canada asked me to send you whatever amount was left over after settling his bill, so please find enclosed P.O. for 3s." Other three shillings "represents halfpenny fines for being late at meal times during our holidays this year."

SOME OF OUR CANADIAN GIRLS.

The largest sum to hand this month is the legacy of the late Dr. Burns, amounting to £1,000. Another legacy of £290 is to be divided between the Homes, Sanatoria, and Colony; and £150 is the half-yearly instalment for the upkeep of "Oswald" Home. An English lady going to live abroad has sent £29. Three separate sums of £20 have reached us, two of which are from New Zealand, and the third from a lady interested in emigration work.

Ten shillings have been sent by the grandfather of three of our boys; £1 by the mother of a fourth; and 10 dollars with the following, by one of our girls in Canada.—

I suppose you are beginning to think that I was never going to answer your letter. We have been very busy getting things ready for winter. I suppose you have got the church finished by this time. How I do long when Sunday comes that I was there to go to church. We have to drive four miles every Sunday, and we don't get home till after two o'clock. I suppose you are getting ready for New Year. I put 20 dollars in the bank this year. I thought I would send 10 dollars to you. Hope to do better every year. It is the only way that I can show how thankful I am for your kind care over me when I was young. It has saved me from many evil habits that I might have fallen into. I am so glad that I have given up all for Jesus. I am trying to live a Christian life and do what little things I can for the Master. I guess I will have to close as it is bed time. Pray for me that I may prove true to God.

Will our friends join us in bearing this one and the rest of the great multitude who have gone forth from the Homes, before our Heavenly Father, so that by His grace vouchsafed to them in answer to our prayers, they may be enabled to "prove true to God?"

As the days go by and our experience ripens, we feel more and more that our responsibility for the boys and girls does not end with their sojourn here, but extends right on till each has learned to love the name of Jesus; and even then our intercession must not cease. It may be that circumstances prevent friends giving as much as they would like, but no circumstances can prevent approach to the throne of grace.

The needs of the month have been met by contributions from all over the world, and from all sorts and conditions of persons, from the Cambridge undergraduate to the "grateful patient," and from the little children to the very aged. £1 12s. is the gift of three generations, and £2 5s. of some Glasgow open-air workers, whose contribution has been passed on to us by one who used to help in our City Mission. From another old helper come two pairs of socks "for the two best-behaved men amongst the Colonists," and a cheque for £2 from a friend who overlooked us last year and wishes to right his error by a doubled sum this year.

The following little note has come from one of our boys who left us years ago, and though not very large, is reported by our visitor to be a clever, manly little fellow, and well spoken of by his master:—

I now write you these few lines to let you know that I am getting on well. I hope you got your church enlarged all right, because it would be getting cold. Did you have church as regular as before? I have never missed a Sunday in three years in going to Sunday school or church, so I have had the prize for three years, and have been on one farm for five, but I expect to be in the Far West with my brother. He has just gone out West this spring, and has bought a little ground of his own. He wants me to come out and help him run his little farm, so I think I will go out in the spring, and then I may buy some land of my own. I have been saving all the money I can. I still wear the blue ribbon.

The weather being unfavourable last month, we had our old-fashioned

Hallowe'en march on the 5th inst., and a very pretty spectacle it was to see such a long procession of children with their coloured Chinese lanterns winding along the paths in front of the Sanatoria, the swaying motion of the lanterns borne aloft by the little folks as they disappeared and reappeared in and out of the clumps of pine and fir, making the effect quite weird.

For the benefit of friends who were unable to be present at our annual meeting on 30th inst., we insert the following extract from the *Glasgow Herald* :—

The thirty-ninth annual meeting of the Orphan Homes of Scotland, Consumption Sanatoria of Scotland, and Colony of Mercy was held yesterday in the Christian Institute, Glasgow. Sir William Bilsland, Bart., presided.

In the annual report it was stated that the history of the Homes had been one of steady expansion since 1871, when Mr. Quarrier, after seven years' work among the street boys and girls, opened a home in Renfrew Lane. The one room had grown into 76 separate buildings erected on land belonging to the Homes; the first destitute child had been succeeded by 14,305 others, most of whom were now men and women; the income of £1,400, which sufficed for the first year's operations, was now about £40,000 annually, and never once in the 39 years had there been a meal wanting or a penny of debt.

Mr. J. P. Maclay, who submitted the report, said the time had come when the Corporation of Glasgow ought to do something in connection with the treatment of consumption. More slums were being made in Glasgow to-day than were being taken away, and so long as that went on he did not think that consumption sanatoria or other charities could expect the demands on them to become less. If the problem in Glasgow was properly tackled to-day there would not be the cry for new homes that there was.

The Chairman moved the adoption of the report. He spoke of the successful careers which boys and girls trained in the Homes had had.

Mr. Cameron Corbett seconded. He said that from every point of view it seemed to him that the treatment of consumption ought to be a municipal work. They had to deal with a disease that was admitted by all medical authority to be infectious, and which could be stamped out in a generation or two if it had adequate treatment. The position was that if a man happened to be a pauper lunatic every scientific remedy was placed at his disposal, but if he happened to be an artisan, upon whose life the interests of his family and to a less degree the welfare of the community depended, they could hardly point where he could receive the treatment which consumption needed. They required sanatoria for the cases which admitted of cure, and hospitals for the isolation of those more advanced cases, and that seemed to him a burden which ought directly to be borne by the community.

Dr. Ebenezer Duncan spoke of the work of the Sanatoria, and Sir Samuel Chisholm dealt with the operations of the Colony of Mercy for Epileptics, after which the report was adopted.

DECEMBER, 1910.—Gifts in kind are always most numerous at this time of year, and at no other season do we need so many, for the cold winter weather demands an additional supply of warm clothing. The approaching festive season means also many extras to the ordinary bill of fare, and it is delightful to find how many remember the children's Christmas expectations. More than 2,500 articles of clothing have come to fill the fast emptying shelves of our drapery department, and for this most welcome addition to our stock we are indebted to a great multitude of friends, many of whom have doubtless laboured long and lovingly all unknown to us, but under the eye of Him who has promised to reward these diligent hands with heavenly riches. The members of the *People's Friend* Love Darg, as well as the friends who make "Aunt Maria" of the *Weekly Herald* their almoner, have again remembered our needs in this way; and besides these we have to thank branches of the Scotch Girls'

Friendly Society, the Young Women's Christian Association, various Dorcas Societies and sewing meetings, and single donors, from the sisters attending a mission hall not two miles from here, to the friend away in Aberystwyth who has sent 35 pairs of slippers and a pair of boots.

Besides several large donations of bread, pies, fruit, and other edibles, our gifts in kind have included two thermos flasks for use at the Sanatoria, a quantity of loofah sponges, 800 motto cards, five bags oatmeal, 1,550 packets of sweets (one for each child), 2 sheep, 3 barrels of apples and 4 boxes of oranges for the Colony of Mercy, and a large consignment of toys.

Quite a number of donations have been sent specially to help with Christmas and New Year festivities. A lady in London sends £25 "to buy things for the children's Christmas tree;" another friend £3 to give an orange to each member of our large family on New Year's Day; and

ONE OF THE FIVE CLASSES IN THE INFANT DIVISION OF THE SCHOOL.

a third, a large annual gift from himself and his household saying, "I would be glad if part can be used towards a Christmas treat, or something of the kind, for all the young folks."

In these weeks when everyone has been working at the highest pressure, it has been a great joy to hear from so many, of pleasure and blessing received through the perusal of last year's Narrative. The story of God's dealings with His people in any sphere must ever afford profitable reading, and our desire is to tell it with such a sense of our own deep need and His abundant fulness, that the glory may redound to Him whose by right it is.

A dear old friend, whose prayerful interest is so helpful, writes :—

Will you please find my cheque enclosed for Homes as usual, value ten pounds. I am sorry at my age, eighty-six years this month, I am not able to do much for the

Master and for your good work. But I can pray for you and for the work, and only wait the Master's call.

A lady writes, "Please accept my enclosed cheque to amount of one hundred pounds towards the Orphan Homes, and be assured of my best wishes for its continued success." From the Sanatoria list we select the following :—

I have much pleasure in forwarding our little subscription for Sanatoria maintenance. My sister's health continues good, and she and I retain grateful memories of the kind care and help she received during her stay at Bridge of Weir 11 years ago. We have exceedingly enjoyed reading the new report. Many thanks for it. My mother wishes me to send a special message from her that she is praying for you and your work every day, that God will help and strengthen you and supply all your need according to His riches.

A collection amounting to £9 has been sent by the residents in a Northern Sanatorium to those in our Sanatoria; and among the month's gifts for the Colony of Mercy are £2 from Torquay, £5 from our old friend "Dumfriesshire," who has long remembered all the branches of the work; £5 from a sympathiser; and £2 8s. 6d. "In memory of our dear mother."

Three of our old girls have each sent 5s., which is enough to keep a boy or a girl for one week; other two, one of whom hopes to double her donation next time, have each sent 10s.; two more £1 each; and one of them says, "I am sending this little present, hoping you will accept my thanks for all the kindness that was shown to me when I was in the Homes;" from Western Canada come 20 dollars from an old boy, who often helps to maintain those who have succeeded him; 12s. 6d. from another old boy with his wife and two children; and £10 from an old girl and her husband.

Ten dollars have been received from three dear friends in Brockville, who have many a time extended a true Canadian welcome to our boys and girls on their arrival at Fairknowe; £1 from Egypt; 15s. from one who wishes 5s. put to account of the proposed swimming bath; 7s. from Bristol, "For blessings received from *The King*;" £5 from a Portuguese Sunday School, with news of the proclamation of religious independence to all in that troubled land; £1 from an aged friend who says, "This is a sovereign that was got at our golden wedding, as a thankoffering for 50 years of married life;" 10s. from a minister in Tunbridge Wells for Mr. Nairn's work in Morocco; £2 from a mother in memory of her only son, who spoke of the work just before he passed beyond; £1 from "an aged widow in humble life who is deeply interested in the work for the children;" two sums of £10 anonymously from Lerwick and Galashiels; 5s. collected in pennies by a little girl of five; £180 from two ladies for the upkeep of the Home which was their gift; and a guinea and a half from a sadly-afflicted one. Surely "God moves in a mysterious way His wonders to perform."

As day by day our Heavenly Father sends all that is necessary for the children's needs without our having to solicit subscriptions, so, as one goes from us, He sends another to fill the vacant place without any effort on our part to find such. Fifteen names have been removed from our family register this month, and twenty-four have come to fill up the empty places. Two of those who left were lads who have been for some time in our City Home, and have now become able to go into private lodgings.

It has been our custom on the night of our annual public meeting in the city to have it reproduced, in a way more suited for young folks, in our own village, but this year it was held on the following evening, the first of the month, when as in former years our choir provided the entertainment, and the prizes for gardening, including a special one for the boys' cottage with the best display, and another for the girls', were distributed.

Christmas Day was celebrated with a special dinner and tea, and in every house treats of various kinds made the holidays a very happy season for the children and parents. At the Christmas services in the church the offerings, amounting to £13 10s., were voted to be sent to help the free breakfast to the poor in Glasgow as a thankoffering from grateful hearts.

THE "WM. BARNHILL" HOME—THE LATEST OPENED.

JANUARY, 1911.—The last hour of the old year was spent with our fellow-workers at the watch-night service in the church. There is always something additionally impressive about the advent of the new year when it falls, as on this occasion, on a Sabbath, and there is more leisure to receive the message of the passing years. It is true that thus interrupted, our preparations are more difficult, but what a blessing this day of rest to all, and especially to those who have been burdened with much service these last weeks. It is so easy in the rush and hurry to be taken up with the physical and material side of things to the exclusion of the spiritual. God grant that in our very busiest days we and all our fellow-labourers may not become so engrossed with the necessary duties that we shall omit that which is of all the most needful—the quiet waiting upon

Him for all that we require of strength and grace. Few, if any, of us there are, old or young, who have not made some good resolve to-day, which we trust will at once begin to influence our daily life. Though we have to mourn over many a lost opportunity in the year gone past, we go rejoicing towards a future that is radiant with hope, bearing in mind that "He knoweth our frame; He remembereth that we are dust."

The twenty-four hours' interval before the long-looked for day serves to heighten its effect, and the excitement on the first night of the new year is even greater with the bairns than it was on the last night of the old. What a day indeed! It would be folly to try to give any adequate description of it. Having to use the church for the services on Sunday nothing could be done till Monday in the way of preparation there, and so the trees had to be planted, the ship's boats beached and rigged on the platform, and both trees and boat loaded with the fourteen or fifteen hundred packages which in the afternoon were to bring such delight to the recipients. If we are ever tempted to wonder if all the extra labour is worth while, a look into the vast sea of happy little faces, aglow with expectancy, and later on with the delight of possession, more than makes up for the toil. The day was bright and clear, and everything passed off without a hitch. Spurred on by a real "tea and ham and egg breakfast," and the prospect of what was still to come, all the tidying up was done in record time to be ready for the turkey, roast-beef and plum pudding dinner before proceeding to the church for the great event of the day, the Christmas trees. While the young folks revelled in their gifts, some of the older folks uprooted the trees and extended the platform for the evening entertainment which followed after an extra special tea. The day closed, as usual, with family worship, and the singing of the children's evening hymn, "Jesus, tender Shepherd, hear me." Just one week later the New Year's festivities were brought to a close on the last night of the school holidays with a cinematograph display, which never fails to please.

A great many letters have come from our old children in reply to our New Year Letter, all speaking of the happy days spent at Bridge-of-Weir; but we feel sure the hearts of many of those who have not written, have turned home at this merry season. Several have sought to show their gratitude by their gifts to the children's treasury, and one of these, a boy, writes:—

I received your New Year's letter and was very glad to get it, as it always gives me some idea of how you are getting along with your great work. I am very glad to see that the Orphan Homes of Scotland are increasing every year. How are you making out with The Boys' Brigade? They must be quite a band by this time. I always liked the drill. I am attending church services as usual. We have a very good preacher. I am well satisfied with the situation I have been in for the last four years. There is no chance for me to get into bad company, and I am sure you will be glad to hear it. I expect to leave this place in the spring and go to another farm, where I expect to earn 100 dollars a year. I am glad to hear the children had a happy day at Millport last summer. I always enjoyed myself when I went to the seaside. I expect the children had a happy afternoon in the church on New Year's Day. Wishing you all a very happy and prosperous New Year.

It is not only our own young people, but those all over the country as well as in America and New Zealand who have helped to meet this month's needs. Upwards of 220 Sabbath Schools and young people's gatherings from Fraserburgh to Kintyre, Dingwall to Jedburgh, Fort-

William to Langholm, Carnoustie to Inveraray, as well as from Tain to Eyemouth, and including Brodick and Orkney, have appeared on our donation list since the year began.

Our old friends, "Alice, Willie, and Jessie" have begun another year with their fortnightly donation to the funds, and several friends have paid for the support of a child for the year. For this purpose we have £12 10s. from St. Boswells; £1 1s., a first monthly instalment from "George and his sisters;" £12 "to maintain a child from Elgin;" £12 from Peebles; £12 "to maintain a girl in *James Wilson Home*;" and £6 10s., a half-yearly amount from Dundee.

£3 for the Colony of Mercy is "In Memoriam;" £5 from Helensburgh, "In memory of my daughter;" 10s. "In Memoriam, J. S. S., 30th December;" and 7s. 6d. from Aberdeen, "In Memoriam, A. J. L."

A friend, sending three guineas says, "My birthday reminds me of my privilege of giving a little to your great monument of faith at Bridge-of-Weir." Another says, "I am sorry to say that my uncle passed away in March, but I have decided to continue sending his contribution." Thus as one is taken home the Lord raises up another to fill the place, so that we shall not want for anything. £2 has come from a Lanarkshire Women's Own; a like amount from a missionary in China; and a third from missionaries assembled in conference on the West Coast of Africa. "Only a working man, an admirer of your work," has sent 5s; a friend in Mull, 3s.; two companies of the Boys' Brigade, £1 and £1 10s. respectively; and a lady in Kentucky, who was one of the W.C.T.U. Party who visited us last year, 10 dollars.

The Largs Evangelistic Mission workers have contributed over 600 articles of clothing; a branch of the Scotch Girls' Friendly Society, 300; and a British Women's Temperance Association, 50.

Several small legacies have come to hand, as well as a number of large gifts, including one of £700 from a friend who says he is not forgetful that the work is growing; £300 for the Homes and £100 for the Sanatoria from other two friends; £500 from "A Friend;" £150 "Anon.;" and £100 per the Charity Organisation Society, from another friend who always gives in this way.

Our admissions, numbering forty-six, are exceptionally large, and with only ten discharges, our nett increase is thirty-six for the first month of the year.

FEBRUARY, 1911.—Every month of the year has some particular feature, and though February is not marked by any special celebration, it contains one of our red-letter days, for thirty-four years ago, on the 10th inst., the first stone of "Broadfield" Home—the first cottage of the Orphan Homes of Scotland—was laid. How far beyond the Founder's original intent the work has grown, may be seen by referring to the list of buildings on the cover of this narrative; but how much farther it may still grow none would dare predict. We are reminded of the widow's cruse of oil, and how, so long as she had anything in which to contain it, the oil kept flowing, but ceased when she failed to provide another vessel. And so, as long as the Great Provider sees fit to send the children and the Homes to shelter them, it is not for us to stay the blessing. Twenty-seven boys and seven girls, just about as many as fill another Home,

have come to us in this short month, thus eclipsing the Founder's ambition to admit one child every day. Of the thirteen who have left us, eight have received a good outfit and been placed in situations where they will be able to maintain themselves. One of our boys who is doing for himself across the Atlantic has sent two dollars as a token of his gratitude, and another who has been out for quite a little time sends us good news in his first letter. He says:—

It gives me great pleasure to write these few lines to let you know how I am getting along. Well, I'll tell you the best news first. I suppose you could almost make a guess at what it is. On 14th November last I gave my heart to Jesus, and I have been enjoying the fulness of joy ever since. I feel rather ashamed to tell you this is the first time I have undertaken to write you a letter. I think it is very good of you to send us a letter at New Year to let us know how things are going on in the old Homes. Mr. Grierson was telling me about Mr. Findlay's suggestion of building a Canada cottage. I think it is fine. You said in your New Year's letter that some of us perhaps were looking forward to the day when we would be going out to preach the gospel to the heathen. Well, that is exactly what I'm hoping for. What a deal of encouragement such a letter brings, but how much better if all our children's names could be written in the Book of Life before they leave us. May "He which hath begun a good work" in this one, "perform it until the day of Jesus Christ." A bright little girl who left two years ago writes:—

You will see I have changed my address. I have been here for three weeks, and like it very well, although I am farther from my brother and sister, but Mrs. V. has kindly arranged it so we can all be there together on Sundays in the summer at least. J— is going to school, and has been successful during the past year. I received the New Year's letter. The pictures were grand. The church looks fine. I recognise quite a few in the new gallery and platform. The weather has been very cold this last week, but it is a little milder to-day. We are making lots of butter. I am looking up the texts in the almanac. I intend to send it in this year. I have been learning to skate, and like it very much. Would you please ask — if she would get E—'s and the two boys' pictures taken and send me a few.

In all probability one brother and the sister will go out to Canada this year to be beside the two sisters and one brother who are already so conveniently situated to each other. The following extract is from the letter of a girl who went out with our 1905 party, and is now married in Alberta:—

I received your ever welcome New Year letter, and was so pleased to hear from you all and to see how the good work is still being carried on. It is really a blessing that there is such a place to receive the orphans. I have never forgotten the Orphan Homes since I left it, and that will be six years this coming July. I hope some day before long to make a visit to the Homes. My husband is talking of making a trip to England, and if he does I will come and see Bonnie Scotland. He is from Dr. Barnardo's Homes, and has been out in this country for 14 years. His mother and father left him about the same time as mine did, and he has struggled on his own way, and now he is manager of the works.

Turning from our old boys and girls to the month's donation list we are struck with the unusually large number of sums of £10 and £20. From "M." comes £20; from a gentleman in the Lake district, £30, with £20 from his brother; £20 from an Edinburgh lady who asks us to use half of this amount for emigration expenses; £20 from a lady in a Lancashire town; £10 from another in the Isle of Wight; £20 for the emigration fund from an old friend much interested in this part of the work; and several other sums of £10, part of which is ear-marked for emigration.

From the Corporation of Glasgow we have £500 for the Sanatoria; from a friend £50, to be equally divided between the Homes and the

Sanatoria; £50 from Cheshire from one who has been prevented by sickness from sending this earlier; a cheque for £200 from a lady "for current expenses;" £50 from a friend in Kilmarnock; £100 for the emigration fund and £10 for the general fund from two friends near Glasgow; and several legacies, two of which amounted respectively to £206 3s. 1d. and £179 11s. 6d.

Some missionaries and their native helpers in Egypt have contributed £1 14s. 3d.; a minister in South Africa, £1; a grateful girl, £1; the brother of one of our boys, 5s.; a grateful mother, £1; and "Scotty," another £1. With a donation to the Sanatoria we have the following:—

I have much pleasure in forwarding to you the sum of 15s. from — S.S., for the benefit of the Sanatorium, which, I believe, has been a great blessing to many a poor sufferer, and I may say that one of our own school children is expected to be with you soon.

A BEDOUIN ENCAMPMENT VISITED BY PASTOR AND MRS. FINDLAY.

From Ross-shire, 10s. comes "as a token of thanksgiving to God for health and prosperity in my studies." A couple who adopted a dear little girl exactly a year ago have sent £1 as an anniversary token. A mother has forwarded 5s., part of the savings of her little one who has gone "home;" and along with 174 articles of clothing we have received £7 11s. from a women's sewing society who wish their contribution divided equally between the Homes and the Sanatoria. From Thurso 31 garments have arrived, and our old friends of the Phoebe Band have again sent about 250 garments.

An interesting event in the village life this month was the visit of Dr. Wilfred Grenfell, who very kindly came to tell us of his work in Labrador, with lantern views of the various stations, hospitals, etc. Following his visit a collection was taken, and we had the pleasure of sending him a cheque for £100 from the children, workers, and friends.

MARCH, 1911.—A donation of £5 from a Sabbath Forenoon Meeting at Zeitoun, Egypt, and another of £1 from a friend in Jerusalem, have been forwarded by Pastor Findlay, who with Mrs. Findlay were recently visiting mission stations in Egypt *en route* for India and China. Other foreign contributions are £6 12s. 2d., a Christmas collection from Tientsin; £2 from Queensland; a guinea from Natal; £1 from a church in Buenos Ayres; £1 from Illinois; and 3 dollars from an old girl in Canada. A P.S.A. Brotherhood has sent 10s., and a girls' industrial class, £1 4s. 8d.; and other 10s. have come from the poor children attending a medical mission Sabbath children's service.

Of English gifts this month 10s. and £2 come from Leeds; 5s. from Bournemouth; £1 from Cornwall; 4s. and 5s. (both sums in postage stamps), from friends in London and Somerset; and £50 from Harrogate. Other two sums, each amounting to £50, have come to hand, and one of these, "a birthday gift," is to help with the outfit or anything extra we decide on for the boys going to Canada next month.

A week of special services for the children was held in the church from 26th February to 5th March by Mr. John Stewart, and his addresses on "The Pilgrim's Progress" and The Good Shepherd, will long be remembered. Many of the children were deeply impressed, and not a few professed faith in Christ. Our friend Mr. Mackeith was with us on two evenings and took part in the meetings.

As soon as the New Year, with its attendant excitement, loses its freshness, visions of our great Dominion beyond the Atlantic begin to rise before the minds of many, if not all, of our boys. With the entrance of March the Canada fever rises to a great height, since by that time preparations of all kinds for the outgoing band have to proceed in real earnest, and the first selection of those desirous of emigrating has been made.

At the beginning of the month we had upwards of £500 on hand for emigration expenses, and since then several other gifts have been sent for that purpose, amongst which are £20 from Ayrshire to pay the outfit and passage of two boys who are anxious to go, and four guineas from Edinburgh to help with the outfit of other two brothers. Other gifts to be used at our own discretion for whatever presses most at time of receipt have been put aside for this purpose. The largest of these is the half of a contribution of £200 from Rothesay, and an interesting one is £2 from a friend who not only thinks it a good thing for the children to emigrate, and sends monetary aid, but is himself setting an example by going out to British Columbia.

Leith friends have again sent £12 for the support of a little girl whose two sisters went to a Scotch settlement in Canada in the summer of 1908. Another friend sends a repeat of his December donation, which amounted to £12 10s. 6d., and £10 "In Memory, M. J. F. C.," is for the Sanatoria. £2 19s. 4d. comes with the request, "Please spend the enclosed at the Polytechnic;" and another sends £2 in memory of her son.

In preparation for others going out, it is cheering to have letters like the following from one of our Canadian family:—

I take this opportunity of writing a few lines to you and with a heart full of thankfulness for all the bountiful blessings bestowed on me since I left the dear Old Country Homes. Well, I have heard in your last New-Year's

letter that God has not forgotten you there, and He hasn't forgotten me either in all this big world of hurry and worry. I am getting along nicely with a farmer, and am going to school, hoping to make an attempt to pass the entrance, 1st June, 1912, if God spares me. I suppose you are rejoicing in the new addition to your church. I would like ever so much to just take a peep into the gates and every Home, and there see the children in youth not understanding how good the times are that they enjoy. Well, dear Miss Quarrier, I ask you to please send me the book on the "Life of Wm. Quarrier." Enclosed I send this 25 cents, and if it is more expense just let me know, for although I am not rich I don't want to cheat anybody out of one farthing. The reason I in particular want this book is I often feel as though I would like to know the way of leading a loving life, and let other people know the way of sympathy such as was his life. Now, Miss Quarrier, I send you my most affectionate love, and may God bless the good work you are doing.

On the afternoon of Wednesday, 22nd inst., the school buildings were thrown open for the fathers, mothers, and any other friends who wished to see the classes in working order, and to examine the various specimens of the year's work in drawing, painting, manual work, and kindergarten, which were on display in the class rooms and drill hall. In the evening the annual distribution of school prizes, including the two silver watches for the dux boy and the dux girl, was held in the church, and a most delightful meeting it was, all the children joining so unanimously in doing honour to the successful scholars, and the choir providing their wonted programme of singing, recitation, and drill. In eight days many of the boys who were present at this happy gathering, will be on their way out into the big world beyond the narrow boundaries of our little island home, and will often look back on this as the last gala day of their childhood.

The day following we experienced another of those pleasant surprises which on previous occasions by their very unlooked-for-ness have filled our hearts with joy and thanksgiving. A gentleman who would not give his name, called and said he wished to give "a thankoffering" towards the work, to be used as we thought best, and handed us a bundle of notes, which on looking at we found to be £500. We still required some money for the outgoing band of boys to Canada, and placed part of this unknown friend's generous gift to this purpose. Truly our cup runneth over, and anew we give thanks to our covenant-keeping God for the supply of all our need.

A little less than a week later, on the night of the 28th inst., the final meeting and social function of the Girls' Guildry occurred. Week by week since the beginning of October, they have met, and now that the days are lengthening, the need for such gatherings, which are so profitable for the dark nights of winter, has come to an end for another season.

Still another memorable meeting remains to be written of, namely, the valedictory one on the last night of the month for the Boys' Canadian Party. It was a meeting which will never fade from the memory of these lads, and we trust that many in the quiet of their own souls surrendered themselves to the Saviour. When all the congregation had assembled in the church, the emigrant band, ready for their journey, marched slowly up one aisle and down the other to the front seats reserved for them. Wise words of counsel were spoken by several friends, and each lad as well as those who were going to look after them was publicly, at our great family altar, commended to the Captain of our Salvation. But how grateful we felt to our loving Father, and how the boys' hearts must have been stirred when we were able to tell them that each one's passage and

outfit had been fully paid before the day of sailing, for by the afternoon's mail the last cheque to make up the required amount had been received.

This month we have welcomed other thirty bairns into our family, fourteen of these being girls, and we have bade good-bye to sixteen, and to-morrow the one hundred boys will have gone forth to swell that already great multitude of our larger family beyond the seas.

APRIL, 1911.—The first day of April was made memorable to us in a new way this year, as that was the date fixed for the departure of our 1911 Boys' Emigrant Band. Everyone in the village was early astir to give the party a good send off at 9 a.m. when they left to join the 9.50 train for Glasgow, where they embarked on the Allan Line's s.s. *Hesperian* at Plantation Quay. About noon the gangways were lifted, and three hours

PARTY OF BOYS WHO SAILED FOR CANADA APRIL, 1911.

later, at the Tail of the Bank, those of us who had gone as a convoy, bade farewell to our party of 100 boys under the care of Mr. W. Douglas and Mr. R. H. Findlay, committing them once more in our hearts to the Great Pilot. A last good-bye telegraphed from Liverpool, where the vessel called before proceeding westward to Halifax, N.S., reached us the following day, and in less than a fortnight the village bells rang out the joyous tidings of their safe arrival after an exceptionally fine journey by sea and land at "Fairknowe," Brockville, on the 12th inst.

Eleven boys and sixteen girls have come into our family circle to help fill the places vacated by those who went to Canada, and the eleven others who have found homes in this country, besides the two whom our Heavenly Father has needed for service in a brighter sphere. One of our old girls has sent us half-a-sovereign as a token of gratitude for the help she

received while here; another has given 5s.; and a third sending 5 dollars from Canada, writes:—

I now take the pleasure of writing to you and sending this five dollar bill for the Orphan Homes. I meant to send it at Christmas, but the thought that I needed it most came uppermost. Ever since Christmas I have wanted to send it, and now I send it as a small Easter offering.

May the Lord bless the generosity of this honest lassie. He is never debtor to any, and will in His own appointed way give her to know that "there is that scattereth and yet increaseth." About forty different Bible classes have contributed toward the supply of this month's needs, and three shillings comes as "part of my daughter's first pay." £1 has been received "from two servants;" 10s. for the Sanatoria from a women's afternoon meeting; 16s. from a few Border wareroom girls who have often remembered us; £3 from Chile; 20s. from a friend in the Transvaal; 15s. 9d. from Dublin; £20 from "H.;" £3 10s. from Natal; £10 from an Australian doctor; £5 for the Colony of Mercy from one whose own brother is an epileptic; 5s. from a lady in New Zealand; £5 "with respects;" 10s. from Suffolk; £1 "In Memoriam, E. G.," from Hampshire; £10, "In Memoriam" from Argyllshire for the Colony of Mercy; £20 from a Y.W.C.A. in the same county; and 4s. from one in London who often helps us.

An old lady in her eighty-second year has sent 12 pairs of stockings, and our old friend in Edinburgh, who must by this time have become quite familiar to many of our readers, writes to say:—

I am sending 11 pairs of socks, which will come as a gift on 28th April, being my 83rd birthday. Had hoped to make out more, but the strength having gone out of my hands could only do 9 pairs. My niece did the two last pairs for me.

Another aged friend has sent £3 10s. as "a thankoffering for three-score years and ten," and with £5 for emigration expenses, we have the following:—

Amongst my dear sister's papers we found a small parcel labelled for Mr. Quarrier's children. It contained four pounds, to which I have added one pound as interest, as the parcel is dated some years ago. Her memory failed some years past. It gives me great pleasure to enclose a five pound note, a memorial of an old and faithful friend. It is coming on for the time of the emigration expenses, and as we have never given any special contribution to that fund, if you think proper you might apply it to that branch. I have been an invalid for eight years, seldom able to be out even in summer, growing blind and deaf, and in my 87th year.

The generous friend who has for some years paid a proportion of the passage and outfit of all the boys and girls emigrated, has again sent £500 to help with this year's emigrants, but as the boys have all been paid for, the whole sum stands to the account of the girls' party, and will provide entirely for more than half the number we are likely to send. Two sisters have paid for another one, and from a gentleman in the capital city we have the £20 necessary for other two. Another friend of long standing says:—

Somehow I overlooked sending an orange to all under your care for ——. Seeing it is two months past the time I enclose £4 in place of the two I usually send.

A great many articles of clothing have come to us this month which seems to be the time for bringing most sewing meetings, Dorcas societies, and such like gatherings to a close for the season; but of all the month's gifts in kind the most unique is a parrot and its cage from a friend, who hopes the bird may bring some amusement to the children.

A legacy of £1,000, less duty, amounting to £100, has been paid to the honorary treasurer; and the Thomas Porter Equipment Fund has again made us an allowance of £150. On Wednesday, 26th, we were greatly cheered by the receipt of £1,000 from a lady in Edinburgh to start a new Home, and the promise of another £1,000 to complete it later on. Twenty-one years ago another friend sent the money to build the only Edinburgh Home in the group, and all these years it has provided a home and training for successive families of little girls, many of whom are now in homes of their own, and others are earning an honest living in this land and in Canada. Edinburgh has shared largely in the benefits of the Homes, and at present we have under our care about 200 children who have come to us from that city. It is therefore all the more appropriate that a second Home should be given by one of her citizens, and we praise God for moving the heart of His steward to do this for His little ones.

MAY, 1911.—Quite a number of letters have already been received from the boys who left us a month ago. This one comes from a bright boy of thirteen years who has found a happy home on one of the larger islands of the St. Lawrence River:—

Just a few lines to express my hearty thanks for your kindness in giving me such a nice box packed full of lovely things. I live in a good big farm. It is about 100 acres, and then we have another piece of land down at the bay of about 75 acres. I hope you are keeping well. I went to church last Sunday, and I liked it very much. It is a very small one, but is big enough to worship God in. We are having fine weather just at present, and most of the farmers are busy sowing their seed. I can nearly milk a cow now, and I hope soon to be able to do so.

By way of contrast we insert the following from one who left the Homes as a very little girl twenty-seven years ago.

Easter has passed, and we must look up to our Heavenly Father for His great goodness. I do hope all at your dear Homes spent a lovely time. As I look back and see how I used to run and play I will never, never forget the lessons taught us to live for the Master. I hope some day to come home and see you all. Now you have every modern convenience to what you had in 1884. That is when I sailed on, I think, s.s. *Siberian*. I was eight years old, but I can remember everything that happened. I would dearly love to see all to-night and that beautiful new church. Tell me all the news of my old home.

Since 1884 upwards of two thousand girls have been placed in Canada, and this month we are preparing for a party who are to sail in the second week of June. It is now the turn of the girls to have the emigration fever, and some are already enjoying the anticipation of happy re-unions with brothers or sisters who have preceded them to the land of the West. One of the 1908 girls' party writes:—

I now take the pleasure to answer your welcome letter. I was glad to hear that all was going on well in the Homes. I am sure that all of you would be kept busy getting the boys ready for Canada, and it will not be long till the girls have to get ready. Such a busy place is the Homes. I am sorry to say I won't be able to see Mr. and Mrs. Findlay if they come to Toronto this year, for I am going to the coast for the summer. I hope the concert and prize-giving was a success. I am sure the two that received the watches would be very much pleased with themselves. They must have worked very hard at school to win the prizes. I am sure the children would enjoy the addresses on the "Pilgrim's Progress." I was glad to hear about the new Home which is ready for occupation, and about the new Hospital. I am getting on splendid in my place out here. I like Toronto very much. My sister is getting on well too. We are both in the best of health, also my brothers. I guess they are going to be two farmers, for they like the farm work very much.

Sad news came in the following letter from one of a family of three orphan boys who went to Canada over 20 years ago:—

I am sure you will be sorry to hear of the death of my brother. Three years ago he took the degree of M.D. at the University of Manitoba. It had been uphill work for him for many years previously, he having worked on the railway in the summer to earn the money so that he might attend college. After graduating he secured an appointment, which he gave up at the end of six months in order to take a post graduate course at the London Hospital. He spent nine months at the London and then returned to Manitoba, where in 18 months he succeeded in getting a good country practice. His ambition was to return to London to take the M.R.C.S. and L.R.C.P. degrees. But it was not to be, for on 3rd April, when driving out to attend a patient, his horses took fright and ran away, the vehicle coming into collision with a telephone pole. He was thrown against it, and lay on the snow in a semi-conscious state for an hour. When discovered, a doctor was sent for, and found that his right arm and one rib was broken. Pneumonia set in later, and he passed away on 10th April.

Our sympathies go out to the brothers in this great trial, and we rejoice in the knowledge that they sorrow not as those who have no hope.

From a place in South Africa, which rejoices in the name of "Paradise," we have a donation of £4 3s., which has been collected by friends interested in the work here; friends in Kintyre have again sent us their collection, amounting to £26 10s.; and from the General Secretary of the Scottish National Sabbath School Union we have received collections from various schools totalling £34 16s. 10d., which sum will be added to the money already on hand towards the £2,000 required to build a "Girls' Sabbath School Home," as a companion to the one already in existence for boys. Any donations intended for this purpose should be marked "For the S.S. Home," which will guarantee their not being used for immediate maintenance.

A frequent helper in Crieff has again sent his oft-repeated donation of 10s.; a lady in Shetland other 10s.; another in Orkney, 18 garments; a grateful mother, 4s.; and a "moulder," £2. Thirty shillings has come from one in the Transvaal who says, "it is the Lord's tenth;" £1 from Arran; 10s. from Cardiff for the Home and Foreign Missions Fund; five guineas each for the Homes and the Sanatoria from Dunblane; 10s. from a friend in York, who often remembers our needs; 10 dollars from British Columbia; and £1 from Pennsylvania.

One and sixpence has come as "an invalid's mite;" 10s. from a Sabbath School in "an isolated farm house in Selkirkshire; £5, with sixpence to cover commission on the cheque, from a gentleman in the highest village in Scotland; 8s. from South Wales; £5 from a ladies' work party of a North coast town; and 5s. from a grateful girl. Another who has found a home in this country, writes:—

Just a few lines to let you know that I got home quite safe, and now I must thank you very much for your kindness to me. I must say that I really felt sorry to leave, for it was in the Homes I spent my happy days, but I hope that some day I shall be able to give something in return. How thankful the girls and boys in the Orphan Homes should be to know that they are so well looked after and cared for. I know if I had to spend the same happy days over again I would never want to leave to go out into the world where there is so much sin and misery, but I always pray to my Father in Heaven to keep me and give me grace day by day to help me along in my daily life, and I know He will. I also remember you all in my prayers, and I hope that God will give of His richest blessings to all in the Orphan Homes.

For this and all such notes of encouragement we owe a great debt of praise to our God, and trust that many more will unite in "helping together by prayer for us."

CHILDREN IN THE GROUNDS OF OUR CANADIAN HOME.

A bereaved mother in Ireland writes, "Would you accept this 5s. 2d., being the money belonging to my little son who has gone home to Jesus;" £50 has been allotted for the expenses of our free dispensary in connection with the Consumption Sanatoria, and from Roxburghshire we have £6 to pay for the upkeep of a child for six months. The month's legacies, which are all for the Orphan Homes, have amounted to £3,915. Our *living* legacy amounts to fifteen boys and twelve girls, who with the fifteen discharged from the Homes during May, give a nett increase of twelve on the family register. Of those who have left, five have been outfitted and placed in situations, one little one has been adopted, and one of our City Home lads has been able to take private lodgings.

In view of the approaching coronation a lady, calling one day, left £100 to be spent on special treats for the children, and in consequence of the very extraordinary celebrations of the near future, our usual *May* sports have been held over so that we may the better do honour to a day which will surely be a memorable one for the Nation as a whole. On the last day of the month we received the intimation of a legacy of £10,000—the largest in the annals of our work—from an Edinburgh lady who died quite recently.

JUNE, 1911.—The thirty days of June have added thirty-six to our numbers, but in that time we have parted with seventeen, in addition to the eighty girls who composed the 1911 Girls' Canadian Party. Five have been placed in situations, one little girl has been adopted, and one of our "James Arthur" boys, who was dux of the school in 1909, has gone to sea.

On Saturday, the 10th inst., our Girls' Party took leave of us, embarking on the same good ship which carried our boys across the ocean earlier in the year. Our Canadian superintendent, the Rev. Robert Grierson, who came over from Brockville recently and expressly for the purpose, went to take charge of them with our helpers Miss Gibson and Mrs. Roberts. They were indeed a splendid company, and though our hearts as well as theirs were sad at parting, we feel that they are bound for a land where their opportunities will be multiplied, and they will be able to attain to better positions than could fall to their lot in the homeland. The prayers that we have raised on their behalf in days gone by will still ascend to their Father and ours, that His everlasting arms may be constantly underneath them. Before the month closed we had letters telling of the safe arrival of the party at Brockville on the morning of Monday, 19th inst., after a record journey of less than nine days from the time of leaving the village here till they were comfortably housed at "Fairknowe."

Two days before the date of sailing our hearts were deeply touched by receiving the following note from two little sisters who were of the party:—

I write you these few lines to let you know that my teacher sent my sister and me a shilling each, and my uncle gave us fourpence each, and we thought we would give you the two shillings and keep the fourpence.

Another little girl who went to Canada last year has sent a dollar; 25 dollars have come from one who was a boy with us many years ago, and is still keenly interested in emigration; another boy who was placed in a situation in this country not very long since, has contributed £2; a girl, now in service in Perthshire, sends 10s., and 3s. for Miss M'Naught'

work amongst the Freed Slaves in the Soudan, "In ever fond memory of past kindness received;" and another, whose sister has gone out to join her in Canada this month, sending 3 dollars, writes as follows:—

I am beginning to think it is time I was writing to you. Well, this is Victoria Day, and I suppose you are all in the park having a very happy time. We have had lovely warm weather, but since Monday we have had quite a lot of rain, but it was what we needed, for we were very short of water, and it has been a great help to the crops. I have got on exceedingly well since I came out, and hope that each girl who comes out will get as good a home as I have. Mrs. — is very good to me, and I am treated as if I was one of their own. I have two little girls here to look after, and we have all grown to be very fond of each other. Dear Miss Quarrier, would you kindly let my sister come out with this next band, as I am sure she would like to come. I go to Sunday school every Sunday. We got temperance cards to sign. I did not sign mine, but I handed in my card that I got from the Homes, and I was enrolled as a member of the Temperance League. I am sending you a small donation, praying God will bless it the same as He blesses the large sums.

Four dozen ties and a dozen handkerchiefs have come from one who says, "Accept a few 'Coronation Ties' for the boys from an old boy;" a firm in the city have sent 50 coronation mugs; from the Glasgow Corporation we have received 1,250 bags of pastry and 1,500 copper medals; and £5 from an old friend for the Colony of Mercy, "to be applied to anything which may make the Coronation Day happier for your men and lads." The largest donation we have received this month is one amounting to £200 from a very generous friend who wrote asking how he could treat all the inmates of the three institutions by way of celebrating Coronation Day. With his approval the children's share will be used to defray the extra cost of taking them to the seaside and keeping them there for a whole week's holiday. When all the arrangements have been made and the time comes for the realisation of this magnificent treat, we feel sure the joys of anticipation will be more than realised. Meanwhile the Coronation Day itself was one never likely to be forgotten in our village history. The first item on the programme was the church meeting, where the Coronation Service was read simultaneously with the reading of it in Westminster Abbey, and from which a telegram of congratulation and loyalty was despatched to our newly-crowned King and Queen, who graciously acknowledged it the same evening. Never has the National Anthem been sung with greater zest than on this occasion by our bairns, who heartily shared in the world-wide rejoicing. King George and his Royal Consort have already endeared themselves to all who are lovers of righteousness, by the truly Christian example which they have shown to their subjects. In their responsible, difficult, and unique position, may God give them grace day by day to follow in the footsteps of Him to whom they have surrendered their allegiance. In the afternoon, during the interval between the special dinner and tea, all the children, each bearing a flag, marched in procession from the Central Building, down Faith Avenue, and along the private road to the Sanatoria, whence they returned to the Boys' Recreation Park, where around the flag-staff, several short addresses, suitable to the momentous occasion, were delivered, and where ample scope was afforded for the display of national and loyal feelings. A long programme of field sports, and an exhibition of daylight fireworks (quite a new thing for our bairns), were postponed for a day or two, but that was no serious disappointment since there was enough material for two or three gala days.

Among the gifts to hand this month is one of £20 "from an old friend of your father's;" and another sending £5 says:—

I remember well of meeting your father here in the house of a mutual friend before he began his work, and he then explained to me what he intended doing, provided the means were forthcoming, and right nobly did he carry out his intentions.

An old lady, in her eighty-third year, has sent 1s. 6d.; a friend in Ayrshire, "a minding," as he calls it of £7 10s.; two friends, £1 and 5s. respectively to help with the children's outing; and a Canadian manufacturer has provided us with six splendid lawn mowers.

JULY, 1911.—The school is closed and the long summer vacation begun, but it will take every day of it to enable all our bairns to have their full week at the seaside. The kindness and courtesy of our dear

friend, Mr. Alex. Mackeith, made it possible for us to have the use of the two Homes at Ascog, Bute, belonging to the "Fresh-Air Fortnight Scheme," and the generous coronation gift of last month, together with an anonymous friend's donation of £150 this month for the children's holiday, will defray all the additional expenses entailed by this delightful innovation, which we trust the Lord, through some of His stewards, will make possible again next year. Our first party of boys went off in great glee on Friday, the last day of June, and were succeeded on the two following Fridays by other parties of boys. Thereafter the girls had their turn, and throughout the whole month boys and girls alike were favoured with splendid weather, and returned home looking much the better and browner after their sojourn by the sea.

On Tuesday, the 11th inst., some of us went down to see how the

boys were enjoying themselves, and Mr. Mackeith himself spent the afternoon in showing us over the two Homes, so well equipped for the children's accommodation, as well as the beautiful grounds and recreation spaces, from which a most exquisite prospect of the lovely Firth can be had. We here print a snapshot of Mr. Mackeith standing on the little pier among the children where he was always so much at home, as it is probably the last photograph which was taken of him, for in less than a week, after a short illness, he had gone home to be with the Great Friend of little children. The news of his unexpected death came as a great shock to all interested in the welfare of the children of the West of Scotland, and particularly to us who have known his sympathy so long, and so very recently received an outstanding proof of it. As a last mark of esteem for our departed friend, and to express our deep feeling together with his widow and family, a deputation of our boys and girls attended the funeral and followed the remains to their last resting-place at Kilmacolm. His memory will be a very blessed one in the lives of thousands of the future generation. The accompanying pictures will reveal something of the joy that he had such a large share in affording to our bairns.

While the younger, and by far the larger portion of our family holidayed on the West Coast, our City Home lads had their usual Fair week trip to Pittenweem, Fifeshire, whither they went as a change from Ballantrae, where they have been so heartily entertained for a number of years. They spent a most enjoyable and health-giving ten days amid entirely new surroundings, where many hearts opened to give them a welcome, as may be proved by the fact that this month we have received special collections from two churches in Pittenweem on their behalf. To the members of these and many other friends, whose gifts in money and in kind provide the extras for this purpose, we are heartily obliged.

Ten shillings have come from one who says, "Please accept a fairing for the bairns;" and another friend has provided "a fairing" of a packet of sweets for each member of our family. Another helper has sent "a coronation gift" of £1; a grateful mother, 12s.; a lady beyond the Forth, £5 for the Colony of Mercy; "Tweedside," who often remembers our needs, 10s.; and "Drugs," £5. £2 and 10s. are from Northumberland; 10s. from Staffordshire; £5 from Kent; and £3 12s. 6d., the proceeds of a sale of work held by a little girl, from Surrey.

Four dollars and eighty cents have come from Ontario, as "a thank-offering to God for His goodness in bringing a brother and sister here in safety from the homeland;" and five dollars from Indiana, U.S.A., "from a working man," who says, "I was very much interested in your work before I left Glasgow a year ago, but was not able to give anything to help it along, though I often prayed God to bless the great and noble work."

A friend, sending £20, "to pay for two girls going out to Canada," has written saying, "I had a hurried run there last summer on business, and I heard a great deal about the success of your girls and boys in that country." Such a testimony is most valuable; and in the following two letters the opinion of two of the emigrants themselves is seen. The first is from a very promising lad who went out in the spring of this year, and

the second is from a girl, just as promising, who followed with last month's party:—

We are having lovely weather just now, and the farmers seem to be well pleased with the progress of their crops. We had a very big storm a fortnight ago. It was so bad that several barns were blown down. We had very little damage done in comparison to others. I am getting on splendidly. The farmer is very kind, and is always asking how I am getting on. I liked the trip over very much, but I was not very sorry when I arrived at Halifax. In my spare time after my chores are finished, I help the boss to build up the fences, as the storm knocked them nearly all down. We go to church once a week, that is on Sunday morning one week, and Sunday evening the next. It is a distance of four miles, and we always drive in the buggy, which is very enjoyable in good weather. I suppose the Girls' Party will be out by now. I was going to write a good deal sooner, but it is very easy to put off and off, and I really hope you will excuse me.

I now take the time to write to the Home that has done so much for me. I hope you and dear Mrs. Burges are keeping well, as I am. It is a farm I am in, and

MR. MACKEITH AND A PARTY AT ASCOG.

I like it fine. This is a lovely place. It is the only farm up this way. I enjoyed the voyage splendidly, but I was sick for two days. Mr. — is going to take me to see M—— some day when he has time. M—— is quite near me, so that is something to be thankful for. I was almost a week in Fairknowe before I journeyed to my new home. I kept praying every day that God would put me into a good home, and He has answered my prayer. I am with one of the old girls —. She married Mr. —, a farmer, and has three little children. The eldest is a boy of nine years, the next one, a girl of four years, and the youngest a baby boy, six months old. They are such dear children, I love them so much. I love Mrs. —. She is so kind to me. She treats me as her own. I am very grateful for the training I received, for it is a great help to me.

A firm in the city have sent £50 each for the Homes and the Sanatoria, and £20 for the Colony of Mercy; and other £20 has come from "Sympathy."

Two sums, amounting together to £35 7s. 6d., have come from friends in Largs and Fairlie; £40 "from a friend;" 10s. from a Sabbath School in Thurso; £2 from Portobello, being collections taken at the children's services on the sands; 8s. "to do its little part in the maintenance of your large family;" £5, "the Lord's portion," from Cambuslang; £2 and £2 10s. from New Zealand; £1 10s. from an Australian doctor; and 5s. from one who says, "It was through reading one of your reports I saw, you received such as mine."

AUGUST, 1911.—A year ago we had a tremendous flood, but this year August has been a splendid month, and in consequence the holiday parties of girls have had a grand time at Ascog. Now that the whole family have been away, and are home again, we have much reason to praise God not only for the supply of all their needs, but also because there has not been a single mishap of any kind. How much our children who have gone from us, and especially those beyond the sea, would have enjoyed such a treat as this, which was quite unheard of in their day. A boy who left us in 1909 writes as follows:—

Just a few words to let you know that I am getting on well with my work on the farm. We are now through with our harvest, and will soon be going to thrash and we are started to our ploughing. There is nothing I like so well as to be out in the fields all day and to go to Sunday school every Sunday. At our Sunday school we learn verses, and there is a prize given to the boy or girl who learns the most. I am glad to say that I have won the prize twice, and I expect to take it again this year. My little sister is living in Hull, and I expect to take my holidays next Saturday with her. There is an old man where I am living, and he can't see to read or to do anything, so I have to read to him every Sunday out of the Bible or out of the little tracts I get from Mr. Grierson. I have read the life story of Mr. Quarrier through to him, and he wants me to read it again to him. I think I will close now, hoping this letter will find you all well.

One dollar has been sent from one of our girls in Canada by her mistress who has come to this country for a trip, but regrets her inability to visit the place from which her Scotch lassie came. Another girl in Canada has sent £1, and the following letters from other two, we feel sure, will interest all who care to read them:—

It is such a long time since I wrote to you, I suppose you will be thinking by this time I had forgotten you. Mr. and Mrs. P—— are out West. They are gone over a month. They expect to stay two months. How are Mrs. Burges, Mr. Findlay, and all the other folks getting along? It is nice weather out here. Everything looks nice. The men are busy with the harvest and everything is a rush. I still have the life of Mr. Quarrier. I have let a good many people read it. Everyone that has read it thinks it a very interesting book, and I think so too. I am taking music lessons. A—— is married. He got married to one of the girls from Bridge of Weir. I am staying with them till the old folks come back. I go to Sunday school every Sunday, and to church at night. I got a prize last year for going to Sunday school. I only missed one Sunday in the year.

I am writing this letter to let you know how I am getting on. My mistress is very kind to me, and is teaching me about Jesus, and is trying her best to help me on. There are three children in this home—two boys and a girl the same age as I am. She is a very good girl and is kind hearted, and does to others what she would like done to her. The boys are very nice too, so it is a very nice little family. It is not a big farm, 75 acres, and there is not so much to do. I go to church on Sunday at 11 o'clock and 6 o'clock and to Sunday school at 10. It is a very nice church, but is not so very big, not so big as our one nor as big a congregation. There are quite a few girls around here I know from the Homes.

It is most delightful that this one should still look upon herself as one of our family, and call our beautiful church her own. Another girl in her

letter says, "I try to save some of my thoughts for spiritual things. To be a sunbeam is my principal desire. Sometimes the thorns prick so hard that I am almost in despair, but the roses come again, and I take courage once more."

Thirty shillings enclosed in an envelope on which was written, "For the children's daily bread or some other good use in the Homes," was left one day by a missionary from China who had come to see for himself the work whose fame has long ago penetrated to the heart of that vast empire. £1 has been received as part of the collection at the Coronation service of the Ikwezi Lamaci Mission, Natal, and other £3 being collections taken at the seaside children's services at Dunoon.

A cheque for £1 has been sent by a lady in the Tyrol; 2s. 6d. by a friend in Durham; £1 by an anonymous donor in Southend; £6 by a

sister and two brothers in Edinburgh; £1 from Greenock and another from Lanark for the Colony of Mercy, with £2 for the Homes; £1 from Natal; £3 from two friends in the Transvaal; and £2 from a helper in New Zealand, who says, "I always remember you and your blessed work at the Throne of Grace and all the dear children." A kind donor who has given us very substantial help in the past, has this month sent £250 for the work of the Sanatoria and £100 for the Homes; another friend in Crieff has forwarded £75; and the second instalment for this year toward the upkeep of "Glenfarg" Home has also come to hand.

The month's largest gift, amounting to £5,000, reached us on the 5th inst. from the friend who some time ago promised the money necessary for the erection of a new hospital, which is at present in the Contractor's hands.

We have recently had the pleasure of visits from several of our Canadian family who came to renew acquaintance with their old Home and friends, and brought with them not only visible evidence of their well being and well doing, but financial help in more than one instance to the extent of £10. These tokens of grateful remembrance are a real uplift and encouragement as we seek to help others.

Our family has been augmented by the admission of twenty boys and nineteen girls, and if we could transcribe the histories of these fatherless, needy ones, our helpers would rejoice with us that they are privileged to bring gladness and hope into so many lives that have hitherto known little of the joy that should be their heritage.

SEPTEMBER, 1911.—Thirty-three years ago on the 17th inst., the doors of the Children's City here were opened for the first time, and by the faithfulness of God they have never been closed, but have continued year by year to become wider, until the three Homes opened in 1878 have now increased to a village of over fourteen hundred children. No one could have foretold so great expansion, and even the beloved Founder himself with all his marvellous trust and prevision, had at first fixed the limit at three hundred, and the Central Building was modelled accordingly as church and school for that number. Now that he has gone September holds another anniversary for us, namely, that of his birth. Last year we held our Biennial Thanksgiving on that date, but as it does not fall due again till next year we remembered the day, on which so many look back with gratitude, quietly amongst our own big family circle. Nevertheless many friends in their own homes were thinking of and praying for us, and not a few tokens of esteem for our loved one have come to hand. £2 for the Homes and £1 each for the Sanatoria and the Colony of Mercy have come from one friend; £1 from another; 10s. from one who used to be a helper in the work; £3 from other two friends; 5s., a "birthday in memoriam;" £3 from "mother and children in loving memory of Mr. Quarrier;" and £100 from another donor. On the same day "Teach me, Lord, how much I owe" sent us £25; and a bereaved mother £5 in memory of her little girl; whilst other two friends sending £13 to keep a child for a year say, "We will try and send this sum yearly instead of our regular contribution, as a memorial of our little baby girl."

Fifteen dollars have travelled all the way from British Columbia, and other twenty come from one of our old girls who recently visited her old Home. Another in this country has sent 5s., and a third writes to say:—

I now have the privilege of writing to you again. It seems a long time since I wrote to you last. Just now is a very busy season. We have visitors nearly all the time, so I am kept quite busy trying to make things shine. Summer is gone, and it is now Fall. We have had a large supply of apples. There were bushels went to waste on the ground. I often thought I would have liked to have sent a barrellful back to the Homes in return for the kindness shown me while I was there. I go to church and Sunday school every Sunday. We had an examination on Bible memory work one Sunday, and those who made 75 per cent. got a reward. I tried and made 100 marks. I got a marked Testament, of which I am very proud. I am getting on very well out here, but I long to serve the Lord. I feel He has been very good to me, and I want to give Him my life so that I might be of some good in this world. Pray for me. I guess I will close for this time. Remember me to all the old friends.

The following letter is from a lad who with his sister came to us from

Orkney six years ago, and was one of the most stalwart and promising of this year's boy emigrants:—

I know I ought to have written to you sooner, but we have all been pretty busy all through the spring and summer. All round this part the crops are very heavy, and it has been so hot that it makes the work very hard. I am beginning to like it fine now. The first month I felt it very strange. I like my place fine, and I am getting on fairly well. I hope you are all well at the old Home. I am very glad to hear about the boys and girls all getting a treat to the coast for a whole week. I am sure they must have enjoyed themselves. Would you mind sending me a Report when they come out. I am out of the Homes now, but it is nice to hear how things are doing.

Of the donations received this month £40 is from the Polmont district; £1 from one who frequently sends help for the consumptives; £4 7s. 2d. from a collection box in a Glasgow warehouse; 3s. from a working man

in Blackpool; 10s. from "nondescript;" £2 and 10s. from two companies of the Boys' Brigade; £1 3s. 6d. from a tennis club; 10s. 6d. from one engaged in work similar to our own in Yorkshire; 10s. from Wales; and 2s., with four brush and comb bags, from an old lady in her eighty-third year. One shilling is a tenth of a gift from one of our own invalid boys; and a friend sending three pairs of stockings says they are "my dear mother's last work. She died in July, aged 95 years." The most interesting gift in kind this month is a bag of oatmeal from one who says, "This is the first of our new crop, and I send you this as a thankoffering for a season of blessing from the Giver of all good."

Fourteen names have been removed from the family register since the month began, three girls having been placed in situations, three little

ones adopted, and one of our City Home lads having gone into private lodgings. One dear wee boy, whose bright, smiling face appeared in a group in last year's Narrative, and whose two brothers went to Canada in the spring of this year, has gone to be with Jesus in the "Happy Land" above. The admission of fifteen boys and nine girls has made a nett increase of ten in our ever changing, ever growing family.

OCTOBER, 1911.—The donation list this month contains a larger number than usual of memorial gifts, of which 2s. is from an old worker who is mourning the loss of her husband, and 10s. from two friends in memory of their little girl. £5 "In loving memory for the Colony of Mercy," came to us on the 16th inst., the eighth anniversary of the home-call of our own dear father; and a dear old friend of his and ours has sent other five pounds to defray the funeral expenses of the little hunch-backed lad who has been taken from our midst to add to the number of His jewels. Several friends have written telling us of the home-going of some who have long been interested in the work here; and of these none will be more sadly missed by her wide circle of friends, or better known to regular readers of the annual Narrative than our dear old friend Miss Ellen Richardson of Edinburgh, the news of whose death has just reached us. For many, many years, and up till quite recently, though in her eighty-fifth year, she knitted on an average about 100 pairs of socks for our boys every year. Nor was this the end of her ministration to the orphans, for she kept a little collecting box on her table and enlisted the sympathy of all who came in contact with her, not only to give money, but also to spend time for the work in which she herself was so deeply interested. The words of the friend who apprised us of her entrance to the Glory are very true when she says, "I and many others will miss her strong personality, but the example she set us will, I trust, never lose its power."

Two Edinburgh ladies have sent 40 pairs of socks; £3, with 22 garments, have come from Gretna Green; 68 articles of clothing from a Perthshire branch of the Y.W.C.A.; whilst a work party in Tain and a Sabbath School in Dornoch have each contributed £1. Two shillings is "to help feed the bairns from a wellwisher;" 10s., a "thanksgiving for continued blessings;" £1 from a South African minister; 10 dollars from Aberfoyle, Canada; £2 from an old mission worker, and other £2 from the Women's Own of our City Mission; £50 each from Bearsden, Paisley, Harrogate, and London, with another £50 for the Sanatoria and £100 for emigration expenses from another London friend; and £32 from a few friends in our own parish. £1 17s. comes from the superintendent and members of a works Bible Class in Aberdeen; and £1 was handed to us at St. Enoch Station on the 6th inst. by a dear woman who had overheard a conversation in the railway compartment, and pressed this gift upon us for the children, with the words, "it is for His sake."

An unusually large number of most interesting letters have come from our children this month, and it has been quite difficult to select the few that the remaining space at our disposal will permit us to insert. The first is from a boy who left us long ago, and is now settled in Massachusetts:

I thought I would write to you and let you know that I got the views of the Orphan Homes all right, and was glad to hear from you so soon. I take great pleasure

in looking at them, as everything is so changed since I was there. I would like to see the place once again before I die, but I'm afraid I won't be able to. I was very sorry to hear that Mr. and Mrs. Quarrier were dead, and I know that they will be missed very much by all, and am very sorry for both Mr. Burges and Mr. M'Fadzean's death. I am very proud that I was in the Homes, and I love to tell everyone that I talk with about it. I sit and tell my wife all about it, and now she is very interested in it. I have been married nine years next June, and we never have been blessed with any family yet, but if we were I should want to have them to know the Word of God as I was taught it. I would tell them all about how I got the Word of God from the Home in Scotland, and I cannot forget all the kindness that was done for me there. I trust in the Heavenly Father as I go along. He has been my guide all those years. Here is a text that Mr. Quarrier gave me when I was in the Home, and I have never forgotten it—John iii. 16. I send my best regards to all that know me and you yourself, and my wife sends her kind regards to you.

The next extract is from the letter of a girl who left us many years ago. The book she writes of is one of the little picture albums of the Homes:—

A GROUP OF OUR GIRLS AT THE SEASIDE.

It is a very great pleasure to me to look through that little book and see the wonderful work that has been done to aid the poor children. Of course I do not remember much about the old Home. I was just nine years of age when I came to Canada, and my brother was eight. It was eighteen years in June since we came out. I am sure my brother would have enjoyed very much seeing you. I suppose you do not find many of your children change their name as I have done. I came to Mr. and Mrs. — so young and have been with them so long that it seems to me as though I belong to them. Mrs. — has certainly been a good kind mother to me. She could not, I am sure, do any more for me if I were her own daughter, and I am sure I have just as great love for her.

The writer of the following went to Canada with the 1908 Girls' Party:—

I suppose you are beginning to think that I am one of the girls that have forgotten but that is not so, for there is not a day passes without me thinking of you and praying

to God to take care of the dear old Homes. If ever a girl ought to be thankful it is I for the way that God has put me into such good homes. First when I left Bridge of Weir I was sent to a home where Jesus was all the thought. I stayed there over three years, and just on Saturday I came here to be with Mrs. ———, a true earnest Christian. It makes me feel so happy just to think that Jesus is leading me all the time. I dreaded coming to the city, but I feel quite safe now when I have got a true earthly as well as my Heavenly Friend to look after me. Well, I hope that all the children in the Homes are thankful for such a home. I would like very much to see the dear Homes again, and I hope that I will if I am spared. I think that I will close, hoping to hear from home when it is convenient.

Along with a long and interesting letter from one of the younger girls who went out with this year's Canadian party, has come one from her mistress saying:—

Although a stranger to you, I take the liberty of writing to you as I am trying to be a mother to one of your little girls. We are very much pleased with little A——. It has done us good to have a child in the house, as we have none of our own. I must say that I have a great admiration for the system and methods of the Homes. The way the children have been trained and provided for is a great credit to those who have the management of it. I feel that I should be very thankful to you.

Another letter, which we prize very highly, speaks in the same strain as the last:—

I took a trip out to Canada as my holiday this summer and went and saw M—— B—— at the farm where your father sent her about 18 years ago. She has thriven well, and all parties seem well satisfied with each other and themselves. I was deeply gratified with all I saw and heard, and very thankful to see a sample of your good father's labours and love to the poor. I now send a cheque for £10, of which £5 is for the general purpose of the Homes and £5 to the Emigration Fund.

All our Hallowe'en parties, with the necessary adjuncts of ducking, nut-cracking, masquerading, etc., were held in the afternoon and evening of Monday, the 30th inst., which was the school autumn holiday, and on the last night of the month the bairns had the pleasure of seeing upon the lantern screen, pictures taken while at Ascog, as well as a number of Canadian ones showing the girls after their arrival at Brockville in June; but the most interesting of all was a cinematograph film showing the embarkation of the Boys' Party on 1st April at Plantation Quay.

Twenty admissions bring the number of our family up to 1,385 on this last night of another year, during every day of which God's presence has very manifestly been with us.

The letters from our boys and girls have been specially cheering, and we praise God for the fresh energy that each has brought, as well as for all the rest of the countless blessings that have come to us from the loving hand of Him who is "the same yesterday and to-day and for ever." We are deeply grateful to all who have been His ministers to our necessities, whether by prayer or gift or work, and feel certain that all of them will unite with us in raising anew our "Ebenezer" to the covenant-keeping God who has sent us forth into another year with a glad song in our hearts.

## IN MEMORIAM.

EACH succeeding year leaves us poorer in earth's friendships and richer in memories of those who have run their race and reached the end of their journey. We thank God anew for their ministry for the children, and pray that the relatives and friends may find in Him who said, "Because I live ye shall live also," consolation in their hour of sorrow, as well as strength and help for the days to come.

## SUPERINTENDENT'S REPORT.

ONE thing after another rushes to the front claiming thought and action in this busy hive of effort for the children, and looking back on the twelve months since last report was issued, the whole is like a brief, vague dream. We cannot recall the days. They are gone, and their record has been put in a secure place until "the books are opened." We seek here to mention some of the outstanding features of a year very like its predecessors, full of the loving-kindness of the Father of the fatherless, and full of loving service by gift, prayer, and act, which must some day bring forth an abundant harvest in the lives of many.

The children have come from almost every corner of Scotland, and in about the usual proportion of the sexes, that is boys have exceeded girls by about 30 per cent. The large number of 86 per cent. were of school age, 13 per cent. were under five years, and the remaining one per cent. were over 14 years. Forty per cent. were without father or mother, 19 per cent. fatherless, 8 per cent. had invalid fathers unable to provide for them, while of the remainder no less a proportion than 21 per cent. had either both parents bad, or one parent dead and the other bad. About half of the children were recommended to us by ministers, missionaries, and Christian workers. Public officials, day school teachers, etc., asked us to take 13 per cent. of the whole; Parish Councils sent 12 per cent., and the various branches of the S.P.C.C. sent 16 per cent., Edinburgh heading the list with 18 children.

Glancing at the localities from which they come we find the number from Glasgow is about one-fourth of the whole; Edinburgh sends almost half that number; Fifeshire supplies rather more than Edinburgh; and the remainder come from almost every district from Inverness to Stranraer in the south-west, and to Berwick in the south-east. We received no fewer than thirteen families of not less than four, the largest one being six. Three pairs of twins were admitted during the year. Included in these numbers are those only who were taken for Bridge-of-Weir, older lads and girls over school age being dealt with in our City Home.

On the whole it is surprising how few cases of real bad conduct of an incorrigible nature turn up among such a large number of children, many of whom have had either meagre or bad training before reaching us. Much is done to make life as natural as possible, and to let the days of youth be full of brightness as they ought to be; and we cannot but think gratitude is shown in the good behaviour of many.

Looking at what might be called external things, a good deal has been done to make work easier and more pleasant in and about the houses. Excluding the introduction of electric light superseding oil lamps, no recent change affecting all the houses has been such a real boon as the improved sanitary scheme carried out this summer. The cost of altering buildings, and supplying and fitting up modern sanitary appliances, has been very considerable, but we are sure it has been well spent money.

In common with other localities the fine summer weather caused us a shortness of water. It never actually ran dry, but the pressure was not equal to rising to the highest points. Once we had the fire engine pumping from a second burn to supplement the supply, and at another time some

hoses had been taken to the place. On both occasions the rain came within a few hours. Such exigencies should not be, if avoidable, and our trustees have resolved to greatly increase the storage. The proprietors on whose lands it is proposed to form the new reservoir have promised fees on reasonable terms, and the work will probably be gone on with in the early spring. This, with the necessary addition to sewage filters, which is in course of construction, will cost a large sum of money, but is just one of those necessary outlays consequent on the ever-increasing work, and will doubtless be met in the same way as all other needs have been.

The Orphan Homes are second to none in loyalty, and so many kind friends made it possible to give the children such a good time and so many special gifts at Coronation, that although all hope and pray that a reign so excellently begun may last very many years, yet an annual Coronation would not come amiss!

Among all that makes history in the Homes, perhaps the most memorable event of the year was the being able to give every child a whole week at the seaside. Last year such was hinted at, and now it has actually happened, and in this age of progress and rapid advances it would be nice to have it made a permanency. If the kind friends who bestowed the gift could have popped in unseen and entered into the real joy given to boys and girls, many of whom have been here for years with only one day's outing annually, they would have had some reward in the knowledge of what they had conferred on those less fortunate than themselves or their children. The accommodation for 200 at a time is not easily got, and it was very fortunate that a kindred institution could be of service. After all, if free housing were provided, the extra cost would be small. The return fares would be little more than one day's outing cost, and the expense of living would not greatly exceed the same in the Homes. The "fathers" and "mothers" also shared the benefit, and had thus a very considerable addition to their usual holiday, which is much needed as a respite from a piece of service both arduous and trying when entered into earnestly and heartily.

During the year the health of the community has been very good. The death-rate was low—about four per thousand. There were isolated cases of infectious diseases, but all were slight and ended in complete recovery. During the summer months the boys were allowed to run bare-footed and clad in jerseys instead of jackets. Whatever the result may be on the score of health, there can be no doubt about the improvement in appearance, and the comfort when the weather was so hot. The boys always go bare-headed (except on Sundays), and seem to take no harm, while the benefit on hygienic grounds is considerable.

The playfield so recently enlarged, seemed quite overcrowded when all were out playing cricket, which was greatly enjoyed, but which is now for a season superseded by football.

The City branch of the work has been carried on with the usual energy. Work among those received when between 14 and 18 years is most difficult and often disappointing, but by grace the workers persevere. The Mission work is full of promise in fruit for after days, but in common with similar work elsewhere, has not many visible present results.

## REPORT ON THE ORPHAN HOMES OF SCOTLAND SCHOOL.

**School Managers,** { Mr. J. P. MACLAY, *Chairman*, Sir SAMUEL CHISHOLM, Bart., Mr. ALEX. P. FORRESTER PATON, Mr. ROBERT BINNIE, Mr. W. A. CAMPBELL, Pastor D. J. FINDLAY, Miss MARY QUARRIER and Mrs. A. QUARRIER BURGESS, Mr. R. LOCKHART BRYDEN, *Clerk*.  
*Head Master*—Mr. J. GORDON KENNEDY, M.A.

IN reporting for the year ending 31st October, 1911, the Board of Management of the school have pleasure in stating that the work of education has been making good and satisfactory progress in the various departments. In holding this view, they are confirmed by the Report of H.M. Inspector, Mr. James A. Macdonald, who has reported as follows:—

“In a school where the numbers admitted and leaving reach almost 30 per cent. of the total enrolment, the difficulties of organisation are unusually great, and it is much to the credit of the headmaster and his staff that so satisfactory a level of attainment is reached in the majority of the classes.

“The Infants’ curriculum is on good lines. Kindergarten Exercises are of a varied and useful kind, and are executed with much credit; and in other respects the work is satisfactory. It would be advantageous, however, if in view of the fact that two of the assistants have had as yet limited experience, the Infant Mistress had more opportunity for supervision.

“In the Junior Division the only relatively weak part of the work is Arithmetic. A revision of the methods employed in teaching this subject is desirable. In this connection the Department’s Memorandum should be consulted. On the other hand most of the other work is above the average.

“The Senior Classes show reasonably good results. Minor defects were indicated to the teachers, and will no doubt have special attention.

“The pupils of the Supplementary Course are very well taught. A feature of special excellence is the training in Manual occupations.”

At the present time there are 1,067 children on the roll, 615 boys and 452 girls. The average roll has been 1,067.8, with a daily attendance averaging 1,010.3, making the percentage attendance 94.6.

The girls over 12 in the Primary School receive instruction in Cookery and Laundry Work. A noteworthy feature is the addition to the school of a complete set of gymnastic apparatus, the gift of a friend of the Homes.

In consonance with the movement throughout the country for the further education of scholars over 14 years of age, the Managers carry on Continuation Classes for their benefit. These are organised in two Divisions, the first of which is for English, Bookkeeping, History, Laws of Health, etc. In Division II., suitable training is given to lads in wood-work, and to girls in Domestic Science, while a selected number of boys receive practical training in the subjects of Navigation and Seamanship on the “James Arthur,” the well known ship on land, on which they reside.

As regards Finance, the expenditure in connection with the Day School for the year ending 31st January last, amounted to £3,192 10s. Against this has been received from Government, Grant in Relief of School Fees, £625 16s.; Aid Grant, £145 19s.; Grants under Section 17 of 1908 Act, £177 12s. 6d.; Parliamentary Grant, £1,229 16s. 10d.; and Bank Interest, £7 11s. 5d. The balance has been defrayed by subscriptions to the funds of the school, amounting to £1,005 14s. 3d. The Managers have expended on the Continuation Classes for the year ending 31st July, 1911, the sum of £171 6s. 2d. They received from the Department a Grant for the previous year of £114 7s. 3d., and the balance was defrayed by subscriptions amounting to £56 18s. 11d. The accounts both of the Day School and Continuation Classes have been duly audited on behalf of the Department.

In connection with the school, there are two important organisations, the 2nd Bridge-of-Weir Company of the Boys’ Brigade, and the Girls’ Guildry.

The Brigade has now a membership of 88 non-commissioned officers and boys and 4 officers. In addition to the usual military drill and physical exercises, there are classes for vocal music and gymnastics, and 12 boys passed the test in swimming. The work of the company has its centre in the Bible Class, and is found to be a great advantage to the school. It is an excellent organisation for the “promotion of habits of Obedience, Reverence, Discipline, Self-respect, and all that tends towards a true Christian Manliness.”

Good work is being done by the Girls’ Guildry, through the No. 1 Bridge-of-Weir Company, which has a membership of 123 Maids of Honour, Maids of Merit, and Maids, in addition to 15 Guardians. Classes are held for nursing, first aid, vocal music, and more recently dressmaking. Drill, and physical exercises form an important part of the work of the company, while needlework of various kinds is practised in all the company’s detachments. The spiritual welfare of the company receives special attention in the Bible Class. Through all the agencies at work the girls are encouraged to give effect to the motto of the Girls’ Guildry—“Wise unto that which is good.”

The thanks of the Managers are due to Mr. J. Gordon Kennedy and all the members of the school staff for their earnest efforts to further the education of the children.

## EMIGRATION WORK.

ON our return from China and Japan—referred to in another part of the Narrative—we crossed the great Canadian continent from the Pacific to the Atlantic, dropping off here and there to pay visits by the way. What a land this is, and how vast its possibilities for the future! The magnificent Rocky Mountains are a feast for the eyes, with their towering snow-clad peaks and glaciers, their wonderful cañons and rushing, turbulent rivers. This section roughly occupies the first 1,000 miles, until, at an altitude of some 4,000 feet, the great prairies begin, and these roll on for the next 1,000 miles until Winnipeg—"the prairie city"—is reached. Winnipeg once was "the West," but now this word is usually applied to the land beyond, and this vast wheat-growing belt is "calling" the people from the east and south, as well as from across the seas, and these are pouring into it in hundreds of thousands every year.

Our own boys and girls—of whom about 6,000 have gone to Canada—after spending a few years in Ontario, frequently hear the "call," and move out in response to the summons. Most of these settle in lands far from railway stations, so that, except by letter, it is impossible for us to keep in touch with them; but we rejoice in the tidings which reach us from time to time of one and another doing well, both for this life and the life to come, in those distant regions.

A month was spent at Brockville with our worthy superintendents, Mr. and Mrs. Robert Grierson, who have completed another year of arduous and faithful work on behalf of our large Canadian family. Our friends give themselves to their task with whole-hearted and unselfish devotion, and what this means for the children one would need to live with them for a season to realize.

We often wish that our beautiful Home, on the side of the great St. Lawrence River, was nearer Bridge-of-Weir that we might make a holiday use of it for some of our large family here, and also introduce many of our donors and friends to its restful beauty. The house is surrounded by about sixteen acres of splendidly wooded land, and this autumn, the first we have been on the other side, the changing tints of the trees were beyond anything we had ever seen.

Several weeks were devoted to visitation amongst our old children—many of whom also came to see us at Fairknowe—so that we were able to meet more than 200 of them. These visits were a source of great pleasure both to the children and ourselves. In most instances we find them well placed, content and happy, but occasionally there are matters which want adjusting, and very frequently we find that the visit has been divinely arranged, and that we arrive just in the nick of time when we are able to be of use to the child and the good people with whom he or she is placed. Next in importance to utmost care in the selection of foster homes for the children, is the regular and thorough visiting of them in those homes. The work is of absorbing interest to those who undertake it in the true spirit, and gives many opportunities for sowing good seed and doing little bits of work for the Master in out-of-the-way places.

The following extracts from Mr. Grierson's survey of the past year's work in Canada will be read with interest:—

"These forty years' God has enabled the Orphan Homes of Scotland to give nearly 6,000 Scotch boys and girls a good start in the Dominion of Canada. I am more impressed than ever with this cheering fact that,

in spite of many failings, with very few exceptions, our boys and girls eventually make good and develop into worthy men and women, with grateful memories of those who helped them in earlier years.

"The strenuous task of bringing out the Boys' Party this year was entrusted to Mr. R. H. Findlay and Mr. Wm. Douglas. They also entered into the work of settling and visiting the boys in their new homes with great enthusiasm. Mr. Douglas remained for some weeks at Fairknowe, and thus set me free to visit Bonnie Scotland and help bring out the Girls' Party numbering 80. They were also under the excellent care of Mrs. Roberts and Miss Gibson. Journeying mercies followed us all the way.

"In addition to placing out the parties, we have arranged for nearly 150 changes of situations for our children during this past year. The majority of these have passed through the Home here, and the work of finding the places most suitable for their best development, as well as

PARTY OF GIRLS WHO SAILED FOR CANADA, JUNE, 1911.

putting their outfits in good order for their new homes, was no slight task. We are convinced the changes were for the better, and it is very cheering to get letters expressing gratitude.

"Mr. Claud A. Winters, who has given four months of the year for three years running to the work of visiting our children, cannot have too much credit for his efficient service. A native Canadian, he is devoted to the interests of our Scotch boys and girls, and has travelled over hundreds of miles on his wheel visiting from farm to farm. He reports an improvement on the class of homes that have now opened to our children, and speaks very encouragingly of the life and prospects of them all. Such a report from one who has seen so much of the children in their Canadian homes is very significant.

"The western part of our district has been for many years visited by Mr. James Gordon of Napanee. He takes a deep and fatherly interest in

all the children under his more immediate care, and his visits are highly valued both by the children and the farmers.

"We are encouraged by seeing some of our children showing ambition to rise to better positions. One of our older girls who came out last year has gone to an excellent position as children's nurse, and another is taking a hospital nurse's training. Several are preparing to take the 'entrance examinations' to High School. One boy, nearly 18, is arranging a course in business college here this winter. Another is studying and staying up on the farm with the same object in view. One of the girls also has the same ambition for next spring.

"One case has greatly cheered us. Two years ago Albert — came in looking pretty seedy. After a time of rest in this lovely spot he went forth to a good place. Before long his restless spirit drove him from his good home. Unfortunately the farmer, disgusted with his 'skipping out,' failed to notify us. For a good many months that summer he hired here and there, often by the day. One day he came to us and we had to rig him out again from head to foot. You would not have known him as the same boy. In fear and trembling we entrusted him to a farmer friend of the Home. Albert and his master drove in the other day with a good year's record to the credit both of the farmer and the boy. Another such year's work, and we hope to see the lad established in the good old ways taught him years ago at the Children's City.

"Another case was that of a girl who was doing so badly we were obliged to remove her from the district altogether. After six months in a different 'climate,' our visitor reported her as doing splendidly. The people would not part with her nor she with them.

"The task of educating the Canadian farmer as to the children's school rights, viz.: School all the year round till 14, has kept us busy. In the old pioneer days they went to school during the long winter when the ground was covered with snow, and helped with farm work during the all too short and busy summer. Now that we insist on full school rights for our children, we find a much greater demand for boys and girls over school age.

"Again the red letter day of the year was the day that gave welcome to Pastor and Mrs. Findlay. We enjoyed having them at a quieter time of year, and apart from the rush of the Girls' Party. This visit means so much to us, but this year we realise its value as never before. 'As iron sharpeneth iron,' so their high ideals of ministering to the Quarrier family helps to 'tune us up to pitch'. During their visit 'Fairknowe' has received some much-needed improvements in the way of painting and so forth.

"So many applications for boys were left over from last year that practically all the big boys of 14 and upward, expected next year have already been spoken for. The steady exodus to the West of the sons and daughters from Ontario farms partly explains the ever-increasing demand for our children.

"Eighteen marriages have been reported to us during the twelve months. As two of them were between O. H. S. children, this means twenty of our children entered into the bonds of matrimony.

"Two deaths, both of little girls who came out in 1908, have been reported. One had her older sister with her at the end, and the other died in the care of her mother in far off Saskatchewan."

## HOME AND FOREIGN MISSIONS FUND.

SINCE the last Narrative was issued, it has been the privilege of the writer and Mrs. Findlay to make a prolonged tour in some of the mission fields of the world, in the course of which we had the opportunity of visiting some hundreds of missionaries, and seeing something of their work at first hand. Let it be said at once that one of the immediate results of this tour is, that we have returned with a deeper love and higher admiration than ever for the missionary and his work, and with a strong determination to do more than before to help him in every way possible, to make his burden a little lighter where we can, and to do all that may wisely be done to send out additional workers.

Two weeks were devoted to visiting the stations of the Egypt General Mission—at Zeitoun (Cairo), Shebin-el-Kanatir, Belbeis, and Ismailia—and our hearts were filled with admiration as we watched the devotion,

OUR BOAT ON THE KWANGSIN RIVER (CHINA).

zeal, and intense spirituality of the splendid band of men and women who carry on this testimony for Christ, surrounded by the depressing and chilling atmosphere of Mohammedanism. It has been our joy for many years to do a little to help this good work, but it was a new experience to have two little congregations in Egyptian villages vote generous gifts towards the support of the Orphan Homes of Scotland!

We were only able to spend a fortnight in India, but, short as the time was, it was long enough to let us see something of naked idolatry, and of the conditions of the missionary's life and service. Visits were paid in Bombay and Poona districts; a week-end was given to the fanatical city of Pundhürpur; two days we were guests of Pundita Ramabai in the midst of her great family at Mukti; and some days were occupied with a long driving tour in the Bhör Native State, visiting the stations of

the Poona and Indian Village Mission, under the guidance of its director, Mr. Charles F. Reeve. Mission work in these parts of India is peculiarly difficult, and we were profoundly impressed with the splendid courage and consecration of the men and women, who are giving their lives to the superhuman task of bringing those degraded idolaters to the knowledge of our Lord and Saviour, Jesus Christ. They are abundantly worthy of our prayers and gifts and loving sympathy.

China was our principal objective, and in that great land, which at present bulks so largely in the public eye, we were enabled to travel about 3,500 miles, and to meet some 360 missionaries, during a stay of nearly three months. This was an intensely interesting and never-to-be-forgotten experience. Much of the time was spent in parts of inland China, where no European except the missionary has yet penetrated, and where we could study native life and conditions, yet but little influenced by the

A MORNING FAREWELL ON THE KWANGSIN RIVER (CHINA).

Western ideas, which are rapidly moulding many parts of the empire. Hundreds of miles were travelled up and down inland rivers in the mat-boats of the country.

Nothing interested us more deeply than the splendid results of the work on the Kwangsin River, in Kiangsi province, where, for the past twenty-five years, a grand band of women, associated with the China Inland Mission, and largely under the direction of Mr. A. Orr Ewing, have been living Christ amongst the people. The transforming power of the Gospel of the Grace of God was manifest in many towns and villages on the river banks. Thousands of the once heathen people have been gathered into the church of Christ, and are now living sweet, clean, Christian lives, and showing a degree of interest in the cause of Christ, and enthusiasm to win others to Him, that would put to shame many of our home churches. Excellent chapels, schools, and mission houses have been built at some of

the stations, and year by year the holy war is being pushed farther and farther into the enemy's camp. It has been a great joy to us to take part in this grand work from the beginning, by prayer and gift, and also by sending some helpers to share in it. How glad we should be to be put in a position to have a still larger interest in it.

One of the finest bits of city work we saw was that of our life-long friend, Dr. D. Duncan Main (C.M.S.), in the great city of Hangchow. Here the doctor and Mrs. Main have, for more than thirty years, carried on a large and very successful medical mission and training college. In their hospitals there are nearly 300 patients, and amongst these, and the multitudes of out-patients, who daily flock to the Doctor to benefit by his far-famed skill, a splendid evangelistic work is always in progress, and from the mass the Lord adds to the church from time to time such as shall be saved.

GRADUATION DAY AT HANGCHOW.

Dr. Main in the centre with British Consul on his right in white.

Our journey included visits to Shanghai, Yang-chow, Kiu-Kiang, Hankow, Peking, Tientsin, Chefoo, and others of the larger cities, besides a host of smaller towns and villages, in ten out of the eighteen provinces into which China is divided. Everywhere we met with the greatest kindness, and most generous hospitality, from missionaries of many societies—American and British—with whom we were privileged to meet.

There is no space to write here of the wonderful signs—visible on all hands—of China's awakening; but this profound impression was made upon us everywhere, that *now* is the day of the Church's opportunity in that great land; *now* we should pour our men and women into China and win it for Christ, or the marvellous opportunity of to-day is likely to pass from us, it may be, never to return.

It was of special interest to us to meet in a great city in the centre of China, an old Orphan Homes' boy, principal of a Bible School, where,

with his like-minded wife, he is made a great blessing in training native evangelists to go forth with the message of life to their fellow-countrymen.

From China we crossed the Pacific Ocean to Vancouver, and on the way tarried sixteen days in Japan. In this wonderful little island empire we were brought in contact with a number of missionary friends—old and new—and were deeply interested in all that we saw and heard of the work of the Gospel amongst this most fascinating people. Many in the homelands are under the impression that Japan is now largely a Christian country, but when one learns that not more than two in every thousand of the population are professing Christians, it is evident that there are still vast tracts of land to be possessed for Christ.

Many needs presented themselves as we moved from place to place on this journey, and it was a real joy to be able to minister to them from the H. and F. M. Fund, and other funds at our disposal.

MRS. GOFORTH AND MRS. FINDLAY IN A HONAN CART (CHINA).

During the year all "Our Own Missionaries" have been preserved in health and enabled to go steadily on with their service for the King, with more or less encouragement. We name our dear friends here that you may not forget them in prayer—Mr. Cuthbert Nairn (Marrakesh, Morocco); Miss A. G. Leith (Kwei-Ki, China: Miss Leith has just arrived home on furlough); Mr. John Ritchie (Lima, Peru); and Mr. and Mrs. James A. Lyle (Pernambuco, Brazil).

We are thankful that the income of this fund is larger than in any previous year, and that some new friends have been led to help in the increase. Could all our readers have seen what we have, on our recent journey, no other appeal would be required to still further add to the amount and usefulness of the fund. All gifts should be sent to Miss Quarrier, at Bridge-of-Weir, specially marked for the "Home and Foreign Missions Fund."

**£7,000 per year required for maintenance. £12,000 for each additional Sanatorium.**

DURING the past year the work of caring for men, women, and children suffering from consumption has gone steadily on, and considering the condition of the patients and the nature of the disease, the Trustees are satisfied that on the whole the results have been satisfactory. The pressure for admission has not been so great as in some years, but about similar numbers have been treated, and the Report of the Medical Officer following hereon gives interesting data and general information relative to treatment and results.

No doubt for a prolonged period Sanatoria will continue to be required in this country, but until the authorities clear out the slums in our cities, and the miserable dwellings in many of the smaller towns and villages, little can be looked for in the way of progress towards eradication of the disease. In Glasgow city improvement is practically at a standstill, but there are indications that the authorities are awakening to the insanitary conditions of some of the poorer districts, and there is reasonable hope that we may soon see a step forward towards betterness. Already compulsory notification has had an influence, and the action of the Government in making a reservation of funds for dealing with consumption, is encouraging, and it is hoped that they will soon put their intentions into definite operation.

At present our accommodation provides beds for 80 women, 40 men, and 20 children, and during the past year 453 patients have been in residence. The cost of treating consumptives is very heavy, and works out about 25s. per patient per week. Many are treated free, while others pay sums varying from 5s. to 20s. according to circumstances.

*Dispensary in James Morrison Street.*—During the past year there have been 2,925 attendances of men, women, and children, and good, useful work has been done. Medicines are given free, and literature distributed advising sufferers how to care for themselves, etc.

The Medical Advisory Board met at intervals during the year and also made periodical visits to the Sanatoria.

Religious services were held regularly, and much appreciated by the patients.

Duration of residence.—The average stay was—For adults, 124 days; for children, 172 days.

Special reports have been submitted during the year dealing with the treatment of phthisis by the intravenous injections of an ethereal solution of iodoform and also by tuberculin. This latter treatment is still being carried out.

A beginning has been made to educate the children who are here as patients, and I think this is a branch which is capable of development. Many of the children suffer from slight attacks of the disease, and it is to their advantage that some degree of education should be given while undergoing treatment here.

I have to thank the members of the Advisory Board for their help and advice during the past year. My thanks are also due to the Assistant Medical Officers, the Matron, and the other members of the staff for their able and loyal co-operation, which has made for the efficiency of the institution, and for the comfort of the patients resident here.

The following is a Summary of cases seen at the Consumption Dispensary, 25 James Morrison Street, during the year:—

THE NEW HOME (No. 3) IN THE COLONY FOR EPILEPTICS.

## COLONY OF MERCY FOR EPILEPTICS.

Honorary Consulting Physician.—DR. DONALD FRASER.

Medical Superintendent.—JOHN GUY, M.D., D.P.H., F.R.F.P. & S.

£4,000 required for each Additional Home.

ANOTHER year of effort to help those who suffer from the sad and difficult disease of epilepsy has passed, and we have pleasure in reporting that life at the colony has gone on in the usual quiet and pleasant way.

Epilepsy is a disease for which any definite cure has not yet been found, and the percentage of sufferers who fully recover is small indeed. We cannot claim any complete cures at Bridge-of-Weir, but are glad to state that the condition of many of the colonists is greatly improved in consequence of the open air and free life of the Colony where, so far as possible, everything is made subservient to their comfort and happiness. At present we have one Home for 30 men and another for 30 women, and a third Home for 30 more Colonists is just about complete, and will be opened during the latter part of November.

We find that outdoor employment is the most helpful for epileptics, and a large number of the men are engaged at gardening, while a few are employed in the workshops. Every encouragement is given to outdoor recreation, and during the winter months the Colonists have many pleasant evenings in the way of concerts, etc.

The Trustees are glad to observe that the authorities are moving throughout the country in the way of providing special homes for poor epileptics, instead of as in the past confining them in poorhouses and lunatic asylums, and it is felt that this work inaugurated by Mr. Quarrier has been a great incentive in that direction.

About £4,000 is required for each additional Home, and the Trustees will welcome gifts, large and small, for further development.

#### MEDICAL SUPERINTENDENT'S REPORT.

The work at the Colony continues to go forward quietly but steadily, and the third house, with accommodation for 30 more sufferers will give a total of 90 beds available for epileptics. At present there are in residence 54 Colonists, of whom 28 are men and 26 women, 23 new cases having been admitted during the year. There were two deaths.

There continues to be much greater demand for admission on the part of men than women, and there has always been a list of male applicants awaiting vacancies. It is with regret that I am unable to report any cures, but when the character of the malady is borne in mind this is not to be wondered at. There is, however, almost invariably a distinct improvement in the physical and mental conditions. Prior to admission to the Colony the individual is apt to lead an aimless, purposeless life, but an introduction to the orderly, well-regulated life of the Colony produces corresponding benefits. It is a great pleasure to me to note the general elevating tone of the Colony, and I attribute this in great part to the character of the ladies who act as the heads of the houses, and the endeavours made to develop all that is best in the Colonists.

The chief work done by the patients is in the garden, the bakehouse, the shoemaker's shop and the laundry. Games, such as football and cricket for the men, croquet, etc., for the women, are much indulged in during the hours after work is finished. At times matches have been arranged with outside teams, and these have always been looked forward to with delight.

We have to regret the loss of Miss Robertson, Matron of No. 1 Colony, who resigned at the close of the year. She has been in the Colony work since its beginning, over five years ago, and by her sympathy and kindness had endeared herself to all who knew her.

J. GUY.

## SUMMARY OF THE YEAR'S WORK.

ORPHAN HOMES OF SCOTLAND, BRIDGE-OF-WEIR, AND CITY ORPHAN HOME, GLASGOW.—On 1st November, 1910, there were resident in the Homes 1,370 boys and girls. During the year 361 new cases have been admitted, making a total of 1,731 dealt with.

These have been disposed of as follows :—Outfitted and sent to domestic service, trades, and situations, 44 ; outfitted and sent to sea, 1 ; outfitted and sent to Canada, 180 ; deaths, 6 ; children under 5 years adopted, 9 ; returned to relatives now in a position to provide for them, 86 ; left to go to relatives, 14 ; sent to other institutions, 6 ; leaving in the Homes on 31st October, 1911, 1,385, of whom 777 are boys and 608 girls.

From the above it will be seen that 234 boys and girls have been given a start in life, and placed in positions to make their own way. The older girls have been trained for domestic service, situations were found for them, and the older boys were apprenticed to trades, sent to sea or to Canada. Amongst those returned to friends many were old enough to work, and, where necessary, we helped with outfits, so that a large proportion of these might be added to the number of the permanently helped.

CONSUMPTION SANATORIA OF SCOTLAND.—The year began with 113 patients in residence. 340 were admitted, 344 discharged, leaving 109 in residence on 31st October, 1911. Attendances at the Glasgow Dispensary, 2925.

COLONY OF MERCY FOR EPILEPTICS.—The year began with 54 men and women in residence. 5 men and 18 women have been admitted ; 23 have been discharged, leaving in residence 54.

### THE YEAR'S INCOME.

The amount received during the year is as follows :—For the General Fund, which includes the keep of the Homes at Bridge-of-Weir and the City Home Refuge and Mission, including £605 8s. 2d. earned by working boys, also £5,000 for building "Elise" Hospital, and £2,000 to build "Murray Brown" Home, and sundry amounts, as per Cash Statement, £30,860 15s. 9d. ; for Consumption Sanatoria maintenance and Building Fund, £5,501 14s. 8d. ; for the Colony of Mercy for Epileptics, £2,084 9s. 4½d. ; for Home and Foreign Missions, £1,568 15s. 10d., making the total amount for all purposes, £40,015 15s. 7½d., besides large quantities of clothing, provisions, and other useful gifts.

In connection with the City Home work, regular Sunday and Week-day Gospel Meetings have been held in our own Hall, and thousands of tracts have been distributed ; nights' lodgings were given to homeless wanderers, and many visits were paid to the homes of the poor by our workers. Sick and ailing ones have been provided with lines for Infirmarys and Convalescent Homes, and many others have received help and advice in their time of need.

For the work accomplished we are, under God, indebted to fellow-labourers, and to the practical generosity of friends throughout the country ; to ministers, evangelists, and others who have aided in the Gospel work ; to Sabbath school superintendents, teachers, and scholars ; to ladies who have made up garments for our little ones ; to the Press which has given notices of the work ; and to the accountants, Messrs. M'Farlane, Hutton, and Patrick, who very kindly act as Honorary Auditors.

## CONCLUSION.

THE beginning and ending of every year in the history of the Homes is, and must continue to be, a note of praise. Perhaps it should not seem wonderful to us that God has dealt with this work as He has done for forty years, but it does ! The principle on which the work is carried on casts the workers continually upon God, and to watch the manner of His unfailing supply from day to day, and year to year, is an education which ought to deepen our spiritual life. We pray and hope that the perusal of the foregoing pages may be made a blessing to many readers, as the experiences recorded have been to ourselves.

All the actual needs, detailed on this page last year, have been supplied, and for the guidance of praying and giving friends we now summarise the probable budget for the year before us :—

**£20,000 for maintenance of Orphan Children in Glasgow and at Bridge-of-Weir.**

**£7,000 for maintenance of Consumption Sanatoria.**

**£2,000 for maintenance of Colony of Mercy.**

**£2,500 for Emigration and maintenance of the Canadian Home.**

**£4,000 for a Swimming Bath, Gymnasium, and Recreation Hall for the boys and girls. (N.B.—£1,000 is in hand for this object.)**

**£4,000 for Enlargement of Water Works and Sewage Tanks.**

No good gift ever comes amiss at Bridge-of-Weir—there is a mouth for every bite, and a back for every garment which our kind donors send to us from all parts of the country. Although many thousands of gifts in kind have poured in annually for forty years, there is no old stock, every useful thing can be put to a good use in this great family.

Without prayer all other gifts would be empty and valueless, and probably we owe as much to those who can only pray—and do it—as to anyone else. Pray on, and with your prayers send up praises also, for God is always answering your prayers for us.

## FORM OF BEQUEST TO THE ORPHAN HOMES OF SCOTLAND

Friends sending Money can have it placed to whatever part of the work they name, either (1) to the General Fund, which includes the maintenance of the Orphan Homes, Bridge-of-Weir, and of the City Home Refuge and Mission Work, (2) to Emigration Fund, (3) to the Orphan Homes Building Fund, (4) to the Consumption Sanatoria, (5) to the Colony of Mercy for Epileptics, or (6) to the Orphan Homes of Scotland Home and Foreign Missions Fund. If left to our discretion, it will be applied to whichever object is most in need at the time. Friends sending their names and addresses will have their donations acknowledged privately in due course, and failing to receive this should communicate with Miss Quarrier at once, in case the money has gone amissing.
